PROPOSED CHANGE OF WATER RIGHT

Jonathon &/or Gretchen Moldenhauer of 14716 Mountain Hawk Rd., Nampa, ID, 83686, filed Application No. **78956** to transfer a portion of one water right with a 1967 priority date from a ground water source totaling 0.041 cfs. The purpose of the transfer is to split the water right and add an existing well for the property that has been separated. Water will be used at the current place of use in Kirk Subdivision that is located east of Farner Road, south of Lewis Lane, west of Pump Road and north of Deer Flat Road.

PROPOSED AMENDMENT OF WATER PERMIT

J. C. Watson Company Inc. of PO Box 300, Parma, ID, 83660, filed Application No. **79164** to amend a water permit with a 2009 priority from ground water totaling 2.74 cfs for irrigation purposes. The permit provides irrigation water for property located on the north side of Hwy 20/26, 0.5 miles east of Notus, and approx. 4.5 miles northwest of the Caldwell Labor Camp. The applicant proposes to amend the permit to add an additional point of diversion. The new point of diversion is also going to be utilized under Application for Permit 63-33906.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights &/or proposed transfer, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 4/7/14. The protestant must also send a copy of the protest to the applicant.

Re: Application for Permit No. 63-33863

Dear Mr. and Mrs. Skinner:

The application referenced above, that you submitted on October 15, 2013, has been assigned to me for review and processing. The application proposes 48.61 af from ground water for the supplemental irrigation of eleven acres, stockwater, and domestic for one home. There are issues with the application that must be addressed before processing can continue.

Item 3 on the application identifies the point of diversion by the legal description. However, the legal description on your application is not consistent with the well log or the application map. It appears that the well is located in the NWSW of Section 31, not the NESW as the application states.

Item 4 requires that the applicant state the diversion rate for each use. Typically, the acre-foot unit is only used for storage uses. For the uses that you listed, you must state the diversion rate in cfs for each use, and a total rate in item 5. For instance, the statutory limit for irrigation is 0.02 cfs/acre and if you need this entire rate, then the quantity for irrigation will be $0.02 \times 11 \text{ acres} = 0.22 \text{ cfs}$. For a domestic use associated with one home and up to 0.5 acre for a year, 0.04 cfs is the standard rate, and for stockwater for 10 head of cattle, 0.02 cfs is sufficient. If you add these rates, the total rate in item 5 would be 0.28 cfs.

Lastly, a \$75 drilling permit was issued for a domestic well. The drilling permit for an irrigation well is \$200. Now that you are applying to use the well for irrigation, a drilling permit upgrade fee of \$125 is required. Please remit the upgrade fee to the Department.

The legal description and diversion rates must be amended on the original application. Alternately, you may seek additional time up to six months to provide the information. Please call me at 208.334.2190 by February 28, 2014 to set an appointment to amend the original application, or to seek more time, so that IDWR can continue to process the application. Failure to submit the information may result in the application being voided. Fees are not refunded for voided applications. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent
