RE: Application for Permit No. 55-13917

Dear Applicants:

Before we can continue our review of the above referenced application, several items on the application need to be amended. I have prepared the amended document for you to save time. If you agree with the changes/additions, please place your initials on the red line at the bottom of page 1 and list the date.

I have increased the volume to 0.2 af because our computer system processes acre feet to only one (1) digit past the decimal. The terms run off and snow melt have been struck because the source of "unnamed stream" is what is used to describe run off, etc. The rest of the changes or additions are self-explanatory.

Give me a call me if you have any questions. Please return the amended application in order for us to continue processing. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

Sincerely,

SHARLA CURTIS
Sr. Water Resource Agent

Enclosure

P.S. The other application you filed at the same time, No. 55-13916, is acceptable and processing of it will resume when we continue processing the amended application.
