Subject: Monsanto/P4 Transfer No. 79037

James and Sharla,

Reviewing the protests and based on discussions with those that I have reached so far, it appears that the only real concern would be if Monsanto tried to pump more water from the Silica Mine well right that is closer to Soda Creek. That would not happen and it is more likely that water if more water would be pumped from wells further from not closer to Soda Creek. As such it is likely we can resolve all protests via a condition that limited the Silica Mine Right No. 11-2144 to the existing amounts.

Regardless, I think we should go ahead and set a status and scheduling conference at the City Hall in Soda to get everyone together to address that and any other concerns.

These dates work for me:

April: 16-18, 21-24, 28-30
May: 5,6,12-15.

Thanks!

Randy
