Re: Compliance Report in connection with Water Appropriation Permit 37-22252 and Transfer 74449

Dear Dr. Brockway,

The Department of Water Resources has reviewed the yearly report submitted on behalf of Dry Lot LLC, outlining activities on the aquifer recharge and pumping project for 2013 at the Valley Club HOA recharge site north of Hailey, Idaho. The data in the report supports compliance with condition #9 of permit 37-22252.

Your cover letter also indicates that the report shows compliance with conditions associated with Transfer 74449. Condition number 5 on Water Rights 37-22313, 37-22318, and 37-22323, as modified by Transfer 74449, reads:

The right holder shall report the daily volume of water recharged to the Department by December 31 each year.

I am unable to find documentation of daily recharge volumes in the submitted report. In order to meet compliance with condition number 5 on water rights 37-22313, 37-22318, and 37-22323, please provide documentation of the daily volume of water recharged during 2013.

Failure to comply with the conditions of the transfer is cause for the Director to rescind approval of the transfer. Please feel free to contact me if you have any questions.

Respectfully submitted,

Craig L. Saxton
Water Rights Supervisor
