Re: Existing Pond

Dear Mr. and Mrs. Perry:

Recently the Idaho Department of Water Resources issued you a water right license, No. 95-12164, for the storage of water for irrigation, recreation and aesthetics. The application and subsequent permit identified the holding capacity of the pond as being 1.0 acre foot. The field exam for the license revealed the actual pond size was approximately 2.8 acre feet. The additional storage associated with the pond will need to be covered by an additional water right.

Please contact me at this office so an appointment can be scheduled so that I can assist you in the development of another application. If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

Keith E Franklin
Program Manager Northern Region
