RE: Application for Permit Nos. 63-33839 and 63-33840

Dear Applicants:

I have begun preliminary review of both applications for permit referenced above. I have found two items on the applications that need to be completed before I can continue processing. I have enclosed copies of both permit applications you submitted. You will notice on page 1, part 4. "Water will be used for the following purposes", no purpose nor season of use is listed (highlighted on the copies). Though from the rest of either application it can be assumed irrigation use, for the standard irrigation season in the general vicinity is intended for each respective application, these sections need to be confirmed by you as applicant(s).

I've also enclosed two revised permit applications with these sections filled out as explained above. All other parts of the application(s) have been filled out exactly as originally submitted. If you concur with these changes, please sign and return to them to my attention.

If you have any questions regarding this letter and/or changes, please feel free to contact me at (208) 334-2190 or at nick.vandyke@idwr.idaho.gov

Sincerely,

Nicholas Van Dyke
Sr. Water Resource Agent
