A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above.:

Duty of ground water on 254 acres authorized for irrigation under overlapping water rights 63-2825, 63-3260, 63-3135 and 63-3331 is 0.014 cfs/acre. Water right 2-10185 is authorized to provide 0.008 cfs/acre supplemental Snake River water to 235 of these acres. The remaining 19 acres are irrigated with primary ground water.

Duty of ground water on 33.5 acres authorized for irrigation under water right 63-32843 is 0.02 cfs/acre. Only primary ground water is authorized for irrigation of these acres.

Duty of ground water on 160 acres authorized for irrigation under water right 63-2949 is 0.016 cfs/acre. Water right 2-2194A is authorized to provide 0.014 supplemental Snake River water to 155 of these acres. The remaining 5 acres are irrigated with primary ground water.

WATER RIGHTS ANALYSIS

Original SunRidge & SunRidge Dairy Farms Transfer Narrative

The purpose of this transfer is to

- 1) Change the commercial/stockwater place of use under Decreed Right 63-3135 to more accurately reflect developed area;
- 2) Describe a 701-acre place of use that reflects an existing integrated irrigation system;
- 3) Clarify the ground water diversions authorized under water right 63-31477;
- 4) Split water right 2-10185 to allow 6.5 acres of primary surface water to be transferred to the Rosti Farm as described above;
- 5) Split water right 2-2194A to allow 5.0 acres of primary surface water to be transferred to the Rosti Farm as described above; and
- 6) Consolidate remaining 325.2 acres (336.7 less 6.5 less 5.0 acres) of primary surface water onto 227.5 acres. This will result in a maximum diversion rate of 0.59 cfs for water right 63-10185 (73.2 split acres x 0.008 cfs/acre) and a 3.53 cfs maximum diversion rate for water right 2-2194A (252 split acres x 0.014 cfs/acre).

The duty of ground water on 254 acres authorized for irrigation under overlapping water rights 63-2825, 63-3260, 63-3135 and 63-3331 is 0.014 cfs/acre (Table 1). Water right 2-10185 is authorized to provide 0.008 cfs/acre supplemental Snake River water to 235 of those acres. The remaining 19 acres are irrigated with primary ground water.

The duty of ground water on 33.5 acres authorized for irrigation under water right 63-32843 is 0.02 cfs/acre (Table 1). Only primary ground water is authorized for irrigation of these acres.

The duty of ground water on 160 acres authorized for irrigation under water right 63-2949 is 0.016 cfs/acre (Table 2). Water right 2-2194A is authorized to provide 0.014 supplemental Snake River water to 155 of these acres. The remaining 5 acres are irrigated with primary ground water.

The duty of ground water on 26 acres authorized for irrigation under water right 63-31477 is 0.012 cfs/acre (Table 2). This right currently describes diversion points used for the Stagecoach and Rim farm system north of the 26 acres. The duty of ground water for 2-2194A is 0.014 supplemental Snake River water to 25 of these acres. The remaining 1 acre is irrigated with primary ground water.

Consequently, of the total 810.2 authorized acres, there are 58.5 acres irrigated with primary ground water, 336.7 acres irrigated with primary Snake River water and 415 acres irrigated with both ground water and Snake River water. Due to changes in irrigation practices and commercial development, only 701 acres are currently irrigated.

Upon transfer approval, the 701 acres will be irrigated with 58.5 acres and 0.76 cfs primary ground water, 227.5 acres and 4.05 cfs primary surface water (accounting for amounts transferred to Rosti Farm – Table 3b) and 415 acres and 8.3 cfs both surface water and ground water.

Subject: Applications for Transfer (3); Application for Permit

Dear Steve,

Enclosed on behalf of SunRidge Dairy LLC (SunRidge) are three *Applications for Transfer* for three SunRidge properties, referred to herein as (1) Dearborne Farm, (2) Rosti Farm and (3) Original SunRidge/SunRidge Dairy Farm. The general purpose of these transfers is to amend existing water rights to reflect current irrigation systems. Also enclosed is an *Application for Permit* for an irrigation storage pond that serves a place of use known as the Stagecoach and Rim Farm. A brief summary of each application is provided below.

Rosti Transfer: Snake River water rights 2-10218 and 2-10220 are currently appurtenant to the 428-acre Rosti Farm property. Although SunRidge is listed as the current owner of these rights, SunRidge only owns 422 acres of the 428-acre place of use listed under these rights. Furthermore, SunRidge is currently irrigating 428 acres on the Rosti Farm, although 6 currently-irrigated acres are not covered by existing water rights 2-10218 and 2-10220). To remedy this discrepancy, portions of water rights 2-2194A and 2-10185, currently appurtenant to the Original SunRidge/SunRidge Dairy Farm described below, have been proposed for transfer to the Rosti Farm. All the rights proposed for transfer (water rights 2-10218, 2-10220, 2-2194A, and 2-10185) are diverted from the same point of diversion on the Snake River.

Specifically, this transfer proposes to do the following:

- 1) Describe a revised 428-acre place of use that reflects a currently-integrated irrigation system on land owned by SunRidge;
- 2) Clarify the applicant's portion of the 422-acre portion of water rights 2-10218 and 2-10220; and
- 3) Transfer primary Snake River water from rights 2-10185 and 2-2194A to allow irrigation of 6 additional acres at the Rosti Farm.

Original SunRidge/SunRidge Dairy Farm Transfer: The purpose of this transfer is to

- 1) Correct the commercial/stockwater place of use under Decreed Right 63-3135 to accurately reflect developed area;
- 2) Describe a 701-acre place of use that reflects an existing integrated irrigation system;
- 3) Clarify the ground water diversions authorized under water right 63-31477;
- 4) Split water right 2-10185 to allow 6.5 acres of primary surface water to be transferred to the Rosti Farm property;
- 5) Split water right 2-2194A to allow 5.0 acres of primary surface water to be transferred to the Rosti Farm property; and
- 6) Consolidate the remaining 325.2 acres of primary surface water onto 227.5 acres, resulting in an increased per-acre diversion rate.

Dearborne Transfer: The purpose of this transfer is to:

- 1) Describe an 850-acre place of use reflecting an existing integrated irrigation system;
- 2) Clarify existing ground water diversions and locations;
- 3) Describe a 27-acre portion of water right 63-7876 to remain unchanged as a supplemental source of supply, and transfer remaining right to the integrated place of use;
- 4) Add a new point of diversion (well); and
- 5) Change ownership of water rights currently in the name of DBSI Tiegs 979, LLC to SunRidge Dairy, LLC.

In aggregate, this transfer will provide maximum diversion rate of 0.018 cfs/acre over the entire integrated place of use. This represents no increase in diversion rate or volume over that which is currently authorized under existing rights.

Rabo Finance has a mortgage on the DearborneE Farm. Transfer authorization from Rabo Finance has been provided. NW Farm Credit Services has a mortgage on the Rosti and Original SunRidge/SunRidge Dairy Farms. Transfer authorization from NW Farm Credit Services will be provided upon receipt.

Stagecoach and Rim Application for Permit: An irrigation pond located in Section 7, Township 1N, Range 2W, has existed since at least 1964 (as indicated in the licensing field exam conducted by the Department for water right 63-3134). The system capacity of the well used to fill the pond was measured at 3.26 cfs during that exam; the size of the pond is approximately 70 acre-feet and cannot be filled in less than 24 hours from the well. As a result, a new application for permit seeks authorization for storage and use of irrigation water, including annual evaporative losses.

Filing Fees

Check No. 2345 for \$4,990 is enclosed for the filing fees:

Rosti Transfer:	8.42 cfs	\$1,140
Original SunRidge/SunRidge Dairy Transfer:	16.45 cfs	\$1,780
Dearborne Transfer:	15.53 cfs	\$1,700
Stagecoach and Rim Application:	3.26 cfs	\$ 370
Total		\$4,990

Thank you very much for your consideration and assistance in this matter. Please call me if you have any questions.

Sincerely,

Lori Graves
