RE: Application for Permit No. 74-15895

Dear Mr. and Mrs. Dye:

It was a pleasure speaking with you on the telephone the other day. As we discussed I am sending you a summary of what was discussed an address change form, beneficial use form and an ownership change form.

Application for permit 74-15895 was submitted to the Department on December 2, 2008. As of January 23, 2014 *no permit authorizing* the diversion of water from Agency Creek has been approved and issued.

The application has been pending awaiting the resolution of written concerns the Department received from the Idaho Department of Fish and Game and the Idaho Department of Environmental Quality and to provide the Idaho Water Resource Board the opportunity to comment. It appears that during this period, the property appurtenant to the Hydro-power use has been sold and is currently owned by you.

In order to move forward, the Department needs to update the mailing address for this water application (address form included). Once this information is received, a draft permit in the name of William and Deanna Omler will be considered for approval.

Once a Permit to appropriate water is sent to you in the name of William and Deanna Omler, complete the proof of beneficial use form and an ownership change form (included). Please clearly indicate that you are the current property owners, and cannot locate the Omler's to secure their signature and you are submitting this form as the property owner. Please return both forms with the required fees.

Once these forms are received by the Department, we can schedule a time to complete a beneficial use field exam. Someone from the Department will come to your home and verify the placement of the hydropower system and measure the diversion rate. Once the field exam is complete a Water Right License in your name, can be issued.

If you have any questions, please let me know.

Thank you,

A handwritten signature in black ink, appearing to read "Kerrie Mathews". The signature is fluid and cursive, with a large initial "K" and a long, sweeping underline.
