

Fax 287-6700

Darla,

We are in process of completing requirements for this permit, 67-15058.

I have a question before purchasing the stock-water tanks. Is there a size requirement that we need to comply with? I have priced out and located three 350 gallon tanks, are these sufficient or do I need to purchase the 700 G. size?

We should have the 'statement of completion' submitted to you in three to four weeks, still some work to be finished up as of yet.

Please e-mail your reply to dandnyberg@wildblue.net

Thank you,
Dennis Nyberg
