*Subject: Application for Transfer – Big Creek Ranch
SPF Project No.: 836.0090*

Dear James,

Enclosed on behalf of Big Creek Ranch, LLC is a water right transfer application to correct the legal description for a point of diversion from Big Creek. The place of use for the subject water rights is correctly described on Transfer No. 78574 (approved June 18, 2013).

The point of diversion as described by partial decrees issued in 2011, and subsequently described by the 2013 transfer is incorrect. The diversion works has not been moved, but a recent survey by the water right holder and GPS data collected by BLM indicates the actual location is approximately 40' southeast of the current IDWR GIS shapefile. This changes the legal description from the SESW Section 12 to the NENW Section 13 (both in T13N, R23E). The point of diversion lies on BLM-owned land. The enclosed transfer seeks to correct the legal description of the point of diversion based on this new information.

BLM is reviewing a copy of the transfer application and will provide a letter acknowledging the accuracy of the proposed change. Based on my recent conversation with you, we believe IDWR will accept a reduced application fee for this simple correction and have enclosed a check for \$200.00. Thank you very much for your consideration and assistance in this matter. Please contact me if you have any questions. We can provide GPS data for the point of diversion upon request.

Sincerely,

A handwritten signature in blue ink, appearing to read "Roxanne", is written over a light blue horizontal line.

Roxanne Brown
Sr. Water Rights Specialist
