Re: Change in Water Right Ownership for 36-2902

Dear Bandy's:

The Department is currently working on a backlog of pending ownership changes that were in some form deficient in information submitted in order to be processed. During our review of your submitted notice we discovered that a warranty deed for your portion of the property is required before we can continue with the processing of the change of ownership. In addition our records indicate that overlapping water right 36-2733 also in the name of McManus appears to be appurtenant to the described property and possibly needs to be included in the ownership change. If this is correct, 36-2733 should be included in the ownership change and an additional \$100.00 fee is required.

Please submit the warranty deed for the portion of your property that is involved with the ownership change. I have also enclosed proof reports for your reference of water rights 36-2902 and 36-2733 and another Notice of Ownership Change for your use if you believe that water right 36-2733 should be included in this ownership filing.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,
