MEMORANDUM

Date: January 31, 2013¹⁴
To: Transfer 78353 File
From: Jim Bitzenburg
Re: Evaluation of Sufficiency of Information Submitted

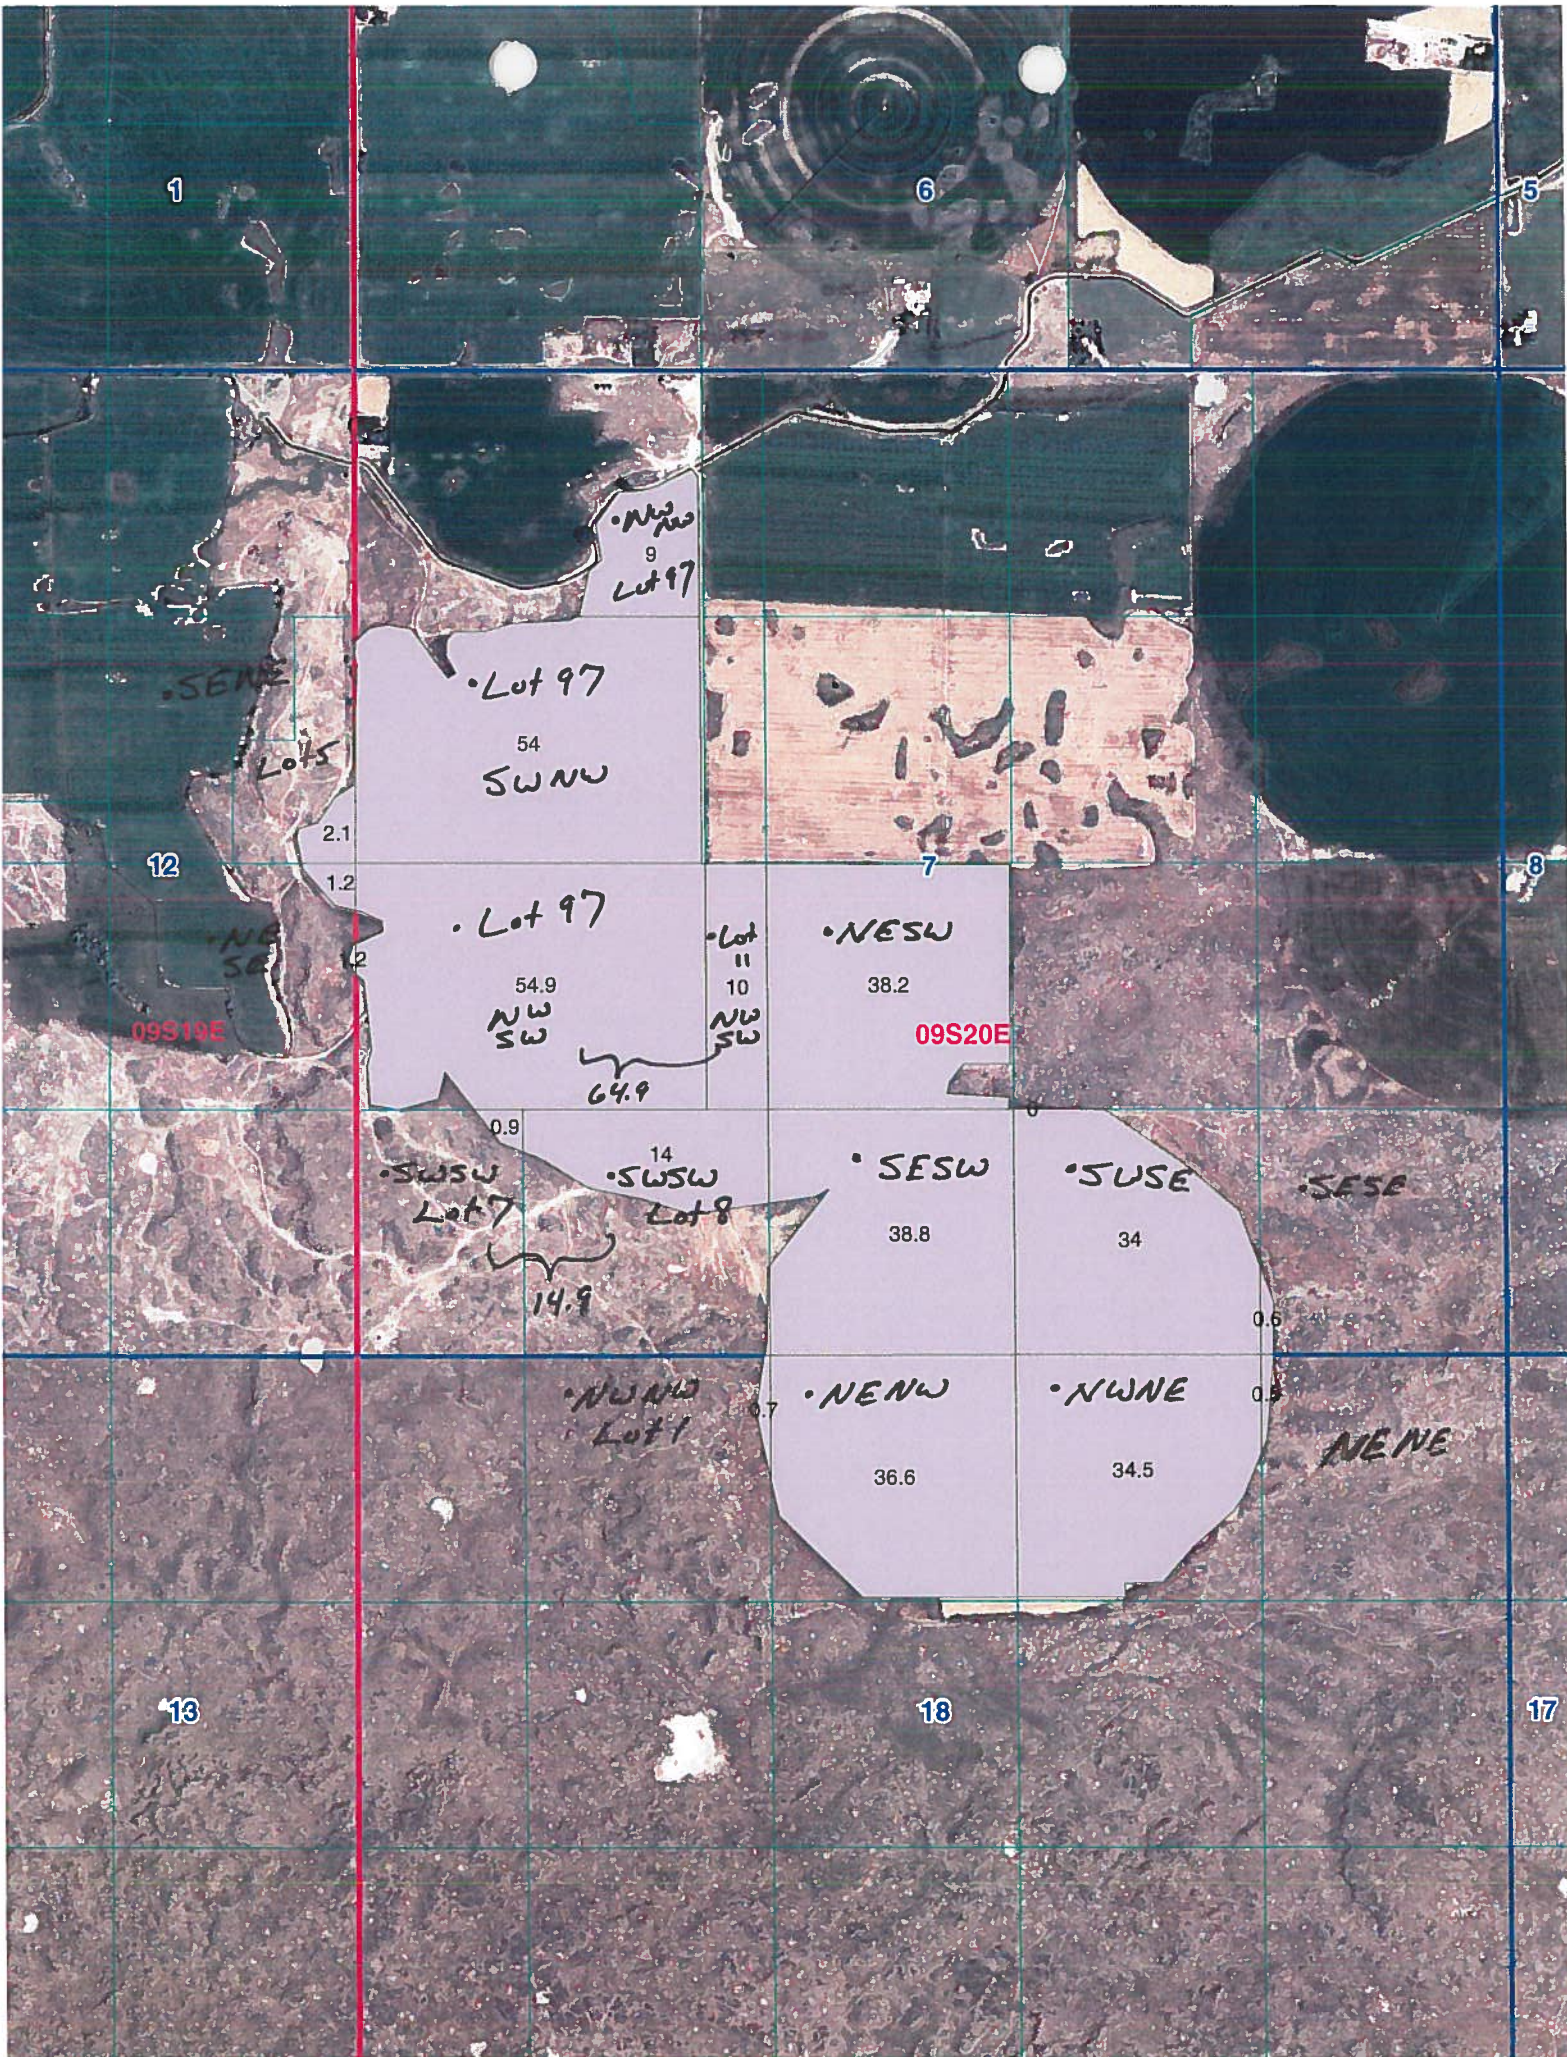

Application proposes to change the place of use (POU) for two water rights (36-7394 and 36-8077) with a combined diversion rate of 4.56 cfs, and combined total of 330 acres currently diverted from a well. The POU is located approximately 3.4 miles north and 2.4 miles east of Eden, Idaho. Application seeks to more accurately reflect the acres now being irrigated due to changes in the irrigation system. Amount of irrigated acres will be the same after transfer as before, with acres coming from adjacent land. Recommend processing without advertising.

The proposed place of use is located in an area within the A&B boundaries and contains many tracts as the actual legal descriptions. The application was drafted based on the Department's PLS layer, which contained errors. To remedy this, new legal descriptions, based on the map provided by the application, were created for the approval. Because of this, the approval does not match the erroneous legal descriptions provided by the applicant. The applicant was made aware of this via phone messages.

Transfer was given to the Watermaster of WD-130 for comment on 1-27-2014 and was returned on 1-31-2014 by Watermaster Cindy Yenter who said she was not opposed to the transfer.

- **Authority to File:**
The Department's database indicates that water rights 36-7394 and 36-8077 are owned by the applicants, James and Karlyn Ritchie. Application was signed by James and Karlyn Ritchie.
- **Water Right Validity:**
Right 36-7394 and 36-8077 were partially decreed in the SRBA in August of 2001. A review of satellite imagery indicates irrigation has occurred on the place of use within the last five years. Based on this review, it appears that forfeiture is not an issue.
- **Injury to Other Water Rights:**
None anticipated or foreseen.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.

- **Effect on the Economy of the Local Area:**
None Anticipated
- **Effect of the Agricultural Base of the Area:**
None Anticipated
- **Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.**

Dear Water Right Holders:

Our office is in receipt of an application for transfer of water right in your name for water rights 36-7394 and 36-8077. The purpose of the transfer, it appears, is to rearrange the place of use to more accurately reflect the current irrigation practice. The fee for this transfer would be \$500.00.

I called your cell phone and left a message regarding this matter on February 27 of this year. If you are still interested in pursuing the transfer, please contact our office at 736-3033. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Bitzenburg'.
