Danielle,

Here is the watermaster waiver letter from Connie Brandau from Water District 57R. We can move forward with the process on these water rights.

Thank you.

Dan Nelson

Dan,

Thank you for your time this afternoon. Attached is my response letter to BLM's request for consideration for waiver of requirements for water rights 57-7692 and 57-7693.

Respectfully,
Connie Brandau

RE: Water rights 57-7692 & 57-7693 waivers

Dear Sir:

I received a letter from BLM Owyhee Field Office dated December 4, 2013 requesting consideration of waiver for the requirement of a measuring device and head gate for water rights 57-7692 and 57-7693 that are spring developments for livestock and wildlife within the 57R watershed.

It is my recommendation that IDWR waive the immediate requirement for a measuring device and head gate on both of those water rights, while reserving the right to require those devices if needed at a future time.

Respectfully,

Connie Brandau, Water Master
Reynolds Creek Dist. 57R
