EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Attachment "A1"
Water Transfer # 78902
Six S Ranch, LLC

I, as the Watermaster of 45F is a little confused with the actual request, since it was already approved in previous water right transfer(s) dealing with "Ground Water Right transfer 78551", approved August 22, 2013 dealing with 45-2625, 45-7021, 45-14376. And I believe a Transfer prior to that was 783011 That is extending with a "Proposed PPU" 2620.6 (POU Boundary) from the adjudicated 1982.1 total acres.

The Proposed PPU under the Transfer 78902 for example is now asking for additional acres of 2669.5 versus 2620.6 and we are looking at POU with the possibility of pivots, where the ground has been in most cases "Dry Farming or Range Land" since I have been the Watermaster.

It will be noted that the Six S Ranch has a total "Surface Water Rights" (see attachment "A2") of 44.77cfs or 2179.1 inches with the Total acres of 1982.1 (limited to variable 30.4 a/c to 1477 a/c maximum). Under the adjudicated 45-F Surface Water Rights issued with IDWR's hardcopy dated June 23, 2006.

High Water is what I call all 1892 Surface Rights which is the first to go since this is early run off and is primarily in March thru April of the season. The Six S Ranch might be ready towards the last portion of April, also Six S Ranch has a total CFS of two Water Rights (45-257, 45-13503) that fall within the date of 4/12/1892 with 33.64cfs, 24.9cfs totaling 58.54cfs.

- Note, the Water District under normal surface water season conditions usually get to a partial use of the rights dated 4/20/1881 dealing with 45-269/270 (consisting of 20cfs total).
- This last year the Rock Dam storage was the lowest since it was put into operation, was almost depleted of the Six S Ranch storage right in the last part of August and the first part of September. Had it not been for the Flash Flood, September 13-14, 2013 (due to the "Hot Well" fire the previous year) and with the reservoir filling backup to water going over the spillway, Six S Ranch in irrigating their crops was rationing as it was.

My summation is if Six S Ranch had the ideal Surface Water conditions that is deeded, verses what they actually have due to the drought and other conditions that have prevailed and what the U.S. Forest Service has done in damaging the Water Shed between Bennett Springs and the surrounding area, and the over allocating of water within the Marsh Creek Drainage (all live streams). I believe that with the technology (Pivots) that we have today there would be a better chance meeting the "Proposed POU" that is being requested. Provided some of the areas at the south end of the valley that are covered in attachment "A2" were utilized where they were decreed originally. In leaving those areas that were originally without water, voided. I as the Watermaster, would have no problem in Approving the proposed transfer of 78902.

Respectively submitted,
