To: Transfer 78898
From: Cooper Fritz
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to change the POD for water right 22-13256 from Section 11 SENW to Section 02 SESW within T05N R44E. The water right has been diverted from the proposed point of diversion for some time. This transfer updates the water right to reflect the actual diversion point.

The new POD location is also shared by rights 22-13718, 22-13801, 22-13802, 22-13188, 22-13723, 22-13719, 22-7279A. A shared well agreement form, which includes the Laughlan Trust, was included with the transfer application.

Authority to File:

The applicant has the authority to file. The application was signed by Thomas Carl Laughlin and Barbara Ann Laughlin. The water right is in the name of the Thomas Carl Laughlin and Barbara Ann Laughlin Revocable Trust.

Water Right Validity:

The water right was decreed in 2008. Review of post decree aerial photography indicates regular use of the water right. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

The transfer was advertised and no protests were recieved. No injury to other water rights is expected.

Enlargement of Use:

The proposed change will not result in an enlargement of use. The diversion rate and volume will remain 0.22 cfs and 45.00 acre feet, respectively, and the POU will remain 15 acres.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
