Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. and Mrs. La Grace:

As a follow up to our telephone conversation on December 30, 2013, the Department of Water Resources made an error in the calculation of the size of your storage pond that affects the filing fee and requires the need to re-advertise the application. The original pond size was calculated to be 3 acre-feet when in fact it should have been 30 acre-feet (5 acres surface area x 6 feet average depth). The error also affected the calculation for the yearly evaporation; please refer to the attached pond analysis sheet.

Filing fees for new water rights are based upon the instantaneous diversion rate or the yearly storage volume. The department originally collected \$100.00 for your application, since the annual volume then was calculated to be less than 20 acre feet. The corrected annual volume for your application is over 20 acre feet which requires a filing fee of \$250.00. You've already paid \$100.00 so the balance remaining is \$150.00. Please refer to the attached fee chart.

Also, I have included a corrected application for your consideration. If the application meets with your approval, please sign and return the document along with the additional filing fee. The Department apologizes for any inconvenience this may have caused.

If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

COPY
