Attachments: Copy of Pittsburg Cr Hwy 87 Oct 2013 w Flows.xlsx; Scanned from a Xerox multifunction device001.pdf.pdf

Ms. Esplin,

I have attached two files I received from the Idaho Department of Fish and Game. The Excel spreadsheet contains Pittsburg Creek flow measurement data from 2013. The PDF shows flow measurement data from 2012. It is my understanding that the measurement location is the Hwy 87 crossing.

I will forward you the operations plan regarding the establishment of a point of diversion in Henry's Lake when I receive it from IDFG. I am expecting it in a couple of days.

Sincerely,

Shelley Keen

Shelley Keen

Water Rights Section Manager

Idaho Department of Water Resource

Mr. Keen:

Thank you so much for speaking with me on the phone today regarding the IDFG's **"REQUEST FOR EXTENSION OF TIME TO COMPLETE TRANSFER" of their water right #21-02100.**

As I told you I'm a past Secretary of the North Henry's Lake Homeowners Association. I've been instructed by

the current board to follow any developments of our Pittsburg Creek water right #21-10015 which has priority to the IDFG water right of Pittsburg Creek.

You asked me to email you my questions so you could respond.

What is the status of the IDFG request for extension of time for their application of transfer of water right #74584?

You signed the extension of time request on January 7th, 2010, which gives the IDFG until February 23, 2014 to complete their project.

This request listed things the IDFG planned to do when they requested 4 additional years to complete the transfer.

Do you have any records of the measurements taken of Pittsburg Creek flow or the completion of the transfer works?

I told you NHLHA has requested and received Pittsburg Creek flow measurements taken when they began in 2012. Jessica Buelow (Wild Rose IDFG) has given us measurements taken in 2012 and 2013 which indicate there is not excess water over the NHLHA water claim. Jessica reported to us that the Pittsburg Creek Weir measuring device was not working but the Highway 87 device has been working.

I also told you it is my understanding the transfer works project hasn't been completed or any money budgeted by the Henry's Lake Foundation for this project. Our 2013 NHLHA President was also the 2013 Henry's Lake Foundation President.

I would appreciate any information you can give me regarding my questions.

Thank you so much!

Lana Esplin

Past Secretary, NHLHA
