Blake,

I have attached a new aerial map for you that identifies the 208.0 acres from 35-14308. Water right 35-14308 is leased to the water bank currently and a portion of 35-14308 should be released this spring. However, a portion of 35-14308 will be leased to the water bank through 2016. Rental applications have been filed to make up for the acres not currently allowed to be irrigated under 35-14308 at this time.

Subject: RE: Koompin Place of Use

Hi Greg,

After reviewing KBC's proposed irrigation place of use for the 2014 irrigation season I noticed that there are two sets of water rights with different irrigation places of use within the 6154.0 acre PPU. Water rights 35-7275, 35-7399, 35-13397, 35-13382, 35-13384, 35-13385, 35-13386, 35-13388, 35-13390, 35-13915, 35-13916, 35-13387, 35-13899, 35-13900, 35-4702, 35-13409, 35-13381, 35-13412, 35-13389, 35-7401, 35-13410, 35-13411, 35-13413, 35-13415, 35-13414, 35-2274, 35-7390, 35-7630, 35-2432C, 35-7391C, 35-7863, 35-13905, 35-13906, 35-2172, 35-13703, 35-13897, 35-13898 and 35-14213 when combined are limited to a specific 3434.0 acre place of use within the 6154.0 acre PPU. Water right 35-14308 is limited to a specific 208.0 acres within the 6154.0 acre PPU. Since these groups of water rights are conditioned to specific acres within the PPU and have different combined acre limits we need to keep them separate. Could you please send a map and if possible a shapefile that has a proposed irrigation place of use of 3434.0 acres (large grouped water rights) and a separate shape for the 208.0 acre (35-14308) proposed irrigation place of use?

I also noticed that the authorized point of diversion for water right 35-14308 is only located in the SWSW of 08S, 29E, Section 14. I did not notice this point of diversion on your map. Does KBC plan on drilling this well?

Thanks,
Blake
