Re: Request to be Added to Mailing List for Applications for Permit Nos. 37-22682, 37-22851, 37-22852, 37-22853, 37-22854, 1-10597, 1-10598, 1-10625, 1-10626, 21-13144, 43-13712, 43-13713, and 45-14446

Pursuant to the 2008 Eastern Snake Plain Aquifer Comprehensive Aquifer Management Plan and the 2012 Comprehensive State Water Plan, the Idaho Water Resource Board (IWRB) supports and assists in the development of managed recharge projects to enhance the water budget of the ESPA. In addition, Idaho Code section 42-1737 requires IWRB approval of managed ground water recharge projects in excess of ten thousand (10,000) acre-feet on an average annual basis. The IWRB has an interest in remaining informed as to current and future ground water recharge permit applications and related proceedings. Pursuant to IDAPA 37.01.01.203, presiding officers may order parties to serve documents upon persons not parties to proceedings before the Idaho Department of Water Resources (Department). This letter serves as a request that the Department add the IWRB to the mailing lists for the above referenced applications.

Thank you for your consideration of this request. Please forward all correspondence and documents to: Harriet A. Hensley, Deputy Attorney General, P.O. Box 83720, Boise, Idaho, 83720-0010. If you have any questions, please feel free to call me at (208) 334-4543.

Sincerely,

A handwritten signature in cursive script that reads "Harriet A. Hensley".
Harriet A. Hensley
Deputy Attorney General
Natural Resources Division
