STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESWATER RESOURCES
WESTERN REGION

APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for an entire water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right or to report an ownership change for a portion of a water right. See the [Application for Transfer Instructions](#) for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

- ☒ Change diversion point(s) ☐ Add diversion point(s) ☐ Ownership change

1. APPLICANT(S) David Chris + Catherine Unruh Phone 831-2879
2. MAILING ADDRESS 25289 Hipwell Ln. City Grandview I
State ID Zip 83624 Email unruhchris@yahoo.com

- ☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.
☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.
☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) required for water right ownership changes; see [fee schedule](#).
☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. LIST WATER RIGHT NUMBER(S) 02-024 05B

- ☐ Attach a copy of the water right(s) as recorded, available at www.idwr.idaho.gov, *Water Right Transfers, Step 1*, or by contacting any Department office.

4. TOTAL AMOUNT OF WATER transferred is 1.24 cubic feet per second and/or 6.02 acre-feet per annum.
(diversion rate) (storage volume)

5. POINT OF DIVERSION – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at www.idwr.idaho.gov, *Water Right Transfers, Online Resources*.

Twp	Rge	Sec	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
05S	04E	34	9	SE	SW		Dwy	Snake	

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

- b. Who owns the property at the point(s) of diversion? _____
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

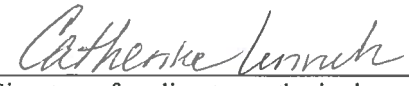

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe _____

7. **MAP** - ☐ Attach a map of the diversion, measurement, control and distribution system. Clearly label the map with township, range, section and $\frac{1}{4}$ of section information. The *Map Tool*, available at <http://maps.idwr.idaho.gov/TransferApplicationLayouts/> provides a satisfactory template for creating the required map.

8. **SIGNATURE** - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

 Signature of applicant or authorized agent	<u>Chris Unruh</u> owner / owner Print name and title if applicable	<u>1-6-13</u> Date
 Signature of applicant or authorized agent	<u>Catherine Unruh</u> Print name and title if applicable	_____ Date

9. **FEE** - ☐ The application filing fee provided in Section 42-221, Idaho Code, must be submitted with the application for transfer. The Application fee is based on the total amount of water proposed for transfer in Item 4: the larger fee for either cubic feet per second (diversion rate) or acre-feet per annum (storage volume). The [Fee Schedule](#) is available at www.idwr.idaho.gov, *Water Right Transfers, Step 4* and in the [Application for Transfer Instructions](#).

RE: Application for Transfer No's: 78382, 78383, 78941

Dear Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right applications. Copies of the applications are enclosed with this email for your reference. Please review the applications, complete the attached recommendation form, and submit your reply, if any, to this office within 21 days.

The protest deadline for any interested party is February 24, 2014. A written protest and the \$25 filing fee must be received by 5:00 p.m. that day in order to be recognized by IDWR.

IDWR will assume you do not object to this application if a timely response is not received. Please contact me if you have any questions in this matter. Thank you for your help.

Sincerely,

Rachel Sommer

PROPOSED CHANGE OF WATER RIGHTS

Chris and Catherine Unruh of 25289 Hipwell Lane, Grandview, ID 83624, filed Application Nos. **78382** and **78383** to transfer two water rights with 1962 and 1967 priority dates from the Snake River totaling 3.28 cfs and 787.5 afa. The purpose of the transfer is to change the points of diversion pursuant to a request by the Bybee Canal Co., to a point 0.4 miles south of the current points of diversion. Water will be used at the current place of use approximately 1 mile south of Grandview.

Celia C. & Charles Raymond Draper of 24964 Draper Lane, Grand View, ID 83624 filed Application No. **78941** to transfer a portion of three water rights with 1969 to 1970 priority dates from the Snake River currently diverted near C.J. Strike Dam at the Grand View Mutual Canal (GVMC) diversion. The purpose of the transfer is to move 3.64 cfs (182 inches) from the GVMC diversion to the nearby Bybee Canal Co. diversion. The remainder of the authorized rate under the three rights, 1.00 cfs (50 inches), will remain diverted at the GVMC diversion.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights &/or proposed transfer, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 2/24/2014. The protestant must also send a copy of the protest to the applicant.

WATER RESOURCES
WESTERN REGION

To : Vicky Music Sr. water resource agent

Hello, In answer to your letter regarding Transfer # 78382

I have spoken to the Bybee water board after our conversation the other day.

The Bybee board instigated and asked us with water rites at the old transfer to get them changed to our main pumping station.

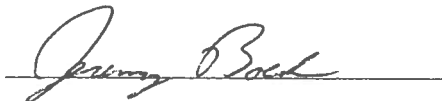

There is plenty of pump capacity , and the Bybee board and us transferring our water rites are asking that our full amount allotted by the state of Idaho be transferred. Thank You

Darrell Agenbroad President

Re: Applications for Transfer No. 78382 (Water Right No. 2-2176B)
and No. 78383 (Water Right No. 2-2405B)

Dear Mr. and Mrs. Unruh:

The applications referenced above seek to transfer the points of diversion from a Snake River source, from a location on CJ Strike Reservoir to a location about 0.4 mile south on CJ Strike Reservoir. Based on information you provided, both are Bybee Canal Co. points of diversion, and the transfers were requested by the canal company. Upon continued review of the applications, the Department has identified additional issues with the applications, and determined that additional information is still needed before proceeding.

The rights delivered at the original point of diversion total 23 cfs, however, on the face of the rights, including your rights, 2-2176B and 2-2405B, is a condition that states that all of the rights are limited to the diversion of 14.55 cfs, or 63% of the total of 23 cfs.

So, 63% of right nos. 2-2176B [$2.04 \text{ cfs} \times 0.63 = 1.29 \text{ cfs}$] and 2-2405B [$1.24 \text{ cfs} \times 0.63 = 0.78 \text{ cfs}$] equals 2.07 cfs, which is the maximum quantity that can transferred to the new point of diversion. If the transfers are approved, the water rights will be authorized for these quantities. If this is not acceptable to you, you may withdraw the applications for transfer. A form is included in this mailing.

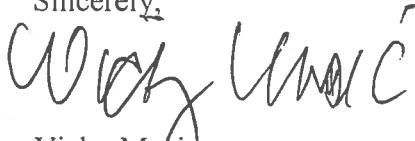

As requested in the letter the Department sent to you on March 20, 2013, please provide a letter from the Bybee Canal Co. that includes the following:

1. whether canal company authorizes the transfers of the points of diversion; and,
2. The rights delivered through the canal system at the new point of diversion total 177.22 cfs. Is the canal capable of delivering the additional quantity of water the authorized under 2-2176B and 2-2405B at the new point of diversion?

Transfer Nos. 78382 and 78383
September 6, 2013
Page 2 of 2

The additional information is due in writing by **October 7, 2013**. Failure to submit the information may result in the application being voided. Fees are not refunded for voided applications. You may email the requested information to me at vicky.music@idwr.idaho.gov and call me at 208.334.2190 if you have questions. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent

Enclosure: Withdrawal of Transfer form

MEMORANDUM

TO: Transfer Nos. 78382 and 78383 Files

FROM: Vicky Music

DATE: March 20, 2013

RE: Evaluation of Sufficiency of Information Submitted

The transfers propose to move the points of diversion of two rights from a former Bybee Canal Co. diversion on CJ Strike Reservoir 0.4 miles south to the Bybee Canal diversion on CJ Strike Reservoir. Transfer no. 78382 addresses the proposed change to water right no. 2-2176B and transfer no. 78383 addresses the change proposed to 2-2405B.

The place of use of the rights is approximately 1 mile southeast of Grandview, Idaho. The old and new PODs are approximately 6.5 miles southeast of Grandview.
The applicants are the contact persons.

Deviations from Transfer Policy Standards

Two applications was filed using the "short form" for changes to the point of diversion only. Both rights could have been changed using one application because one system is affected.

There were several omissions and deficiencies in the applications, and often an item left blank in one application was complete on the other. So, both applications, which are for the same system, answer all of the application items.

Because the rights are delivered by the Bybee Canal co., I requested a letter from them stating that the transfers were acceptable to them. Applicant Chris Unruh called me and stated that the Bybee Canal Co. asked the water users to make the change to the new Bybee Canal Co. POD. He sent a letter signed by the Bybee Board members stating that the change was acceptable. As processing continued, the Department learned that the old POD is owned by Idaho Power, and has not been used for the Bybee Canal Co rights is several years.

There was an issue with a combined use conditions, which is discussed in this memo. The applications will be advertised. There are no other deficiencies in the applications.

Summary of Information Submitted

Authority to File:

The applicants are the owners of record of the two water rights that are the subject of these transfers, and have the authority to file the applications.

Water Right Validity:

Right presumed to be valid because the partial decrees were issued within the past five year period, on 6/15/09.

Injury to Other Water Rights:

No injury is expected by moving the PODs about 0.4 mile.

Enlargement of Use:

There is a danger of enlargement due to an unusual condition on the water right that is described in the discussion section. Water District 02 has only become active in the past year and the water master will ensure that enlargement does not occur.

Local Public Interest:

There are no public interest issues.

Beneficial Use/Conservation of Water Resources:

The application proposes beneficial use consistent with conservation of water resources in Idaho.

Review of the application finds there is no clear inconsistency with criteria of I. C. § 42-222 preventing processing of the application.

Additional Information/Analysis and Discussion

Both of these rights have this condition:

The rights listed below are limited to a total combined diversion rate of 14.55 cfs. Combined Right Nos.: 02-02083, 02-02084, 02-02176A, 02-02176B, 02-04027, 02-02271, 02-02272, 02-02405A, 02-02405B, 02-07032, 02-00063, 2-10313.

I informed applicant Mr. Unruh that the quantity for his rights being transferred would be prorated, and reduced, so that the 14.55 cfs limitation would be met, and to prevent enlargement. This was not acceptable to Mr. Unruh. I informed him that if all of the rights transferred to the new POD, then no reduction would take place and the condition would be preserved for all of the rights.

There are 5 water right owners of the 12 rights. Mr. Unruh contacted some of them, I sent a letter to 2 of the users. As of this date, 2 of the owners [of 8 of the rights] filed transfers to change the POD. As of the date of this memo, 1 of the water users to whom I sent a letter will file a transfer in February. Hence, 11 of the 12 rights subject to the condition will be transferred to the new POD, and none of the rights will be prorated.

IDWR analysis is not needed from other IDWR personnel or programs. IDWR staff held a meeting with the Basin 02 Watermaster to discuss the history, the condition, and other issues in the area.

Watermaster comments will be solicited.

Data entry affected the correct records. The partial decrees were issued & results were migrated to wr records.

SRBA status was described above.

The entire POU of the two rights involved in the transfer are overlapped by 2-10198, owned by the applicants. The new POD per the transfers is also the POD of 2-10198, as well as many other rights delivered by the Bybee Canal Co.

Mitigation is not an issue and there are no Water Bank issues.

Summary

Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.

Condition 046 n/a because a new well is not proposed.

Re: Applications for Transfer No. 78382 (Water Right No. 2-2176B)
and No. 78383 (Water Right No. 2-2405B)

Dear Mr. and Mrs. Unruh:

The transfer applications referenced above has been assigned to me for processing. The applications seek to transfer the points of diversion from a Snake River source, from a location on CJ Strike Reservoir to a location about 0.4 mile south on CJ Strike Reservoir. The Department must have additional information before processing can continue.

Application Item 6a asks for a description of the complete diversion system and item 6b asks for the owner of the property at the point of diversion. If the owner is not the applicant, item 6b asks for a description of the arrangement that enables the applicant to access the property for the diversion system. Additionally, applications for rights that fall within the service area of irrigation or delivery entities must provide something in writing that the change is acceptable to the irrigation or delivery entity.

Application 78382 (rt. no. 2-2076B) indicates in 6a and b that the property owner and point of diversion is the Bybee canal pump station, but does not provide whether the change is authorized by Bybee Canal. No information was provided in Item 6a and b of Application 78383 (rt. no. 2-2405B), and as such, the application is incomplete. Please provide the information required by the applications; confirm whether the information in the applications is the same for each right, and the authorization from Bybee Canal that the change is acceptable to them.

The additional information is due in writing by April 1, 2013. Failure to submit the information may result in the application being voided. Fees are not refunded for voided applications. You may email the requested information to me at vicky.music@idwr.idaho.gov and call me at 208.334.2190 if you have questions. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent
