Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: These applications were received by the Department on December 18, 2013, for the 2014 irrigation season.

AUTHORITY TO FILE: Steven Smart, Public Works Director signed the applications on behalf of the Public Works Dept of the City of Chubbuck. I receive an email from the mayor of Chubbuck, Kevin England, authorizing Steven Smart to sign the applications.

WATER RIGHT VALIDITY: The parent right associated with these rights were decreed in 2004. These water rights are appurtenant to land that has been enrolled in a crop set aside program. Water rights in a crop set aside program are protected from failure. Forfeiture is not an issue. Since the transfer of these rights in July of 2013, Transfer 78626, they have not been used at the new place of use for any irrigation. The City of Chubbuck wants the water rights in the Bank until we have production capability (wells) to divert them.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are subject to Water District #120. His response is attached.

Jean,
Those water rights have never been used in the city. We have put them into the water supply bank until we have production capability (wells) to divert them. If you need a map, I can give you a map of the city boundary. But, again, we have never used them. Technically, the acreage dried up are the ones from which we bought the water rights.

Even though these rights are listed as municipal, they were transferred as irrigation use within the municipality. The transfer was approved in July, 2013. Have the rights been used since the transfer? We either need to see the acres dried up or the City to have never used the rights.

If you have any questions, please contact Pam Skaggs at (208) 287-4951 and she can explain it to you better than I.

Jean,
The map confuses me, because we have no agriculture use being "idled" in the city. This water is for municipal use. The effect is that it is not diverted for municipal use. It seems you could use the maps already in possession of IDWR on the transfer applications.

The Idaho Department of Water Resources received your applications to lease the above mentioned water rights in the Water Supply Bank (Bank).

After the initial review of these applications, it was determined additional information is needed to process these applications.

Under part B-1 Ownership:

We need documentation of your authority to sign the application behalf of the City of Chubbuck. Please note the Lease Contracts will need to be signed by an elected official when you receive them.

We also need a plat map, survey map or aerial photograph clearly showing the specific acres to be idled by these lease applications.

Please return this information within 14 days so the Department may continue processing the Lease applications and the water rights will be available to rent for the 2014 irrigation season.

Thank you.

Subject: Water Supply Bank Applications 29-14054, 29-14055, 29-14056, 29-14080, 29-14081 and 29-14082

The Idaho Department of Water Resources received your applications to lease the above mentioned water rights in the Water Supply Bank (Bank).

After the initial review of these applications, it was determined additional information is needed to process these applications.

Under part B-1 Ownership:

We need documentation of your authority to sign the application behalf of the City of Chubbuck. Please note the Lease Contracts will need to be signed by an elected official when you receive them.

We also need a plat map, survey map or aerial photograph clearly showing the specific acres to be idled by these lease applications.

Please return this information within 14 days so the Department may continue processing the Lease applications and the water rights will be available to rent for the 2014 irrigation season.

Thank you.
