PERMIT APPROVAL NOTICE

RE: PERMIT NO. P63-11116

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

PROOF DUE NOTICE

RE: PERMIT NO. 63-11116

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

Dear Mr. Henrickson:

Re: Permit No. 63-11116
Licensed Right No. 63-8279

Returned is the proof of beneficial use form received in this office on May 29, 1991. Along with the form is a copy of Permit No. 63-11116 and License No. 63-8279 and an instruction sheet/fee schedule.

Note, the proof due notice was sent for Permit No. 63-11116. You indicated that proof was for No. 63-8279, which is a licensed right and already has a proof submittal in 1981.

We need to address the proof of beneficial use submittal for the permit.

-- Under 5, the number of acres irrigated can be a maximum of 71 (as covered by this permit).

-- Under item 6, the maximum rate of diversion is 1.42 as authorized by the permit. This amount is approximately 639 gpm. In addition to this, there is a license exam fee required.

-- The fee is based on the rate of diversion. Note the instruction sheet/fee schedule; for the diversion rate of 1.42 cfs, the license exam fee is \$125.

Please return the corrected proof form and fee by July 1, 1991 to keep the permit in good standing.

If you have any questions, contact me.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

LAPSE NOTICE

RE: PERMIT NO. 63-11116

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

MEMORANDUM

FROM: STEVE LESTER
TO: TIM LUKE AND DON SHAFF
DATE: AUGUST 8, 1991
SUBJECT: PERMIT 63-11116 AND SRBA CLAIMS A63-08430 AND A63-08430A

PERMIT 63-11116 - See receipts C020979 and W013545

The proof of beneficial use was due on 7/1/91. On 6/24/91, Terry Henrickson visited the State Office and filed a transfer application for licenses 63-08430, 63-08279, and 63-09353. He described a change in P/U for 63-08430 that occurred after 1987. He also included additional P/D for the other two licenses, and the P/D additions occurred in 1977. The purpose of the transfer application was to reflect conditions that made permit 63-11116 superfluous. The applicant decided to let the permit lapse and to proceed with the transfer. He also filed SRBA claim A63-08430 to match the license information. *

Upon reviewing the transfer, I noted that the agreement for sale of real estate (Attachment A) defined land in NESE and SESE S.6 but not in SWSE or SESW S.6 (latter two tracts for 47 of the 90 licensed acres). I discussed this with Terry by telephone and told him that proof of the owner's consent was required to change the P/U. His response indicated that the other owner would not grant this permission, which greatly complicated the transfer request.

During an office visit on 7/31/91, Terry told me that he purchased 32 acres in SESE S.6 from the previous owner. He stated that he did not own the remaining land in license 63-08430. Since the transfer route was not feasible, he decided to do two things. One, an amended claim for 32 acres in 63-08430 would be filed (A63-08430A). Two, proof of beneficial use for permit 63-11116 would be submitted because the permit was now needed for the 71 acres minus the 32 acres (SESE S.6) or for 39 acres. He choose these actions based on my recommendations.

Proof was filed for 39 acres and 39" or .78 cfs with a \$100 fee. \$50 was paid on 7/31/91, and \$50 from the now withdrawn transfer application (receipt C020979 dated 6/24/91) should be applied to the proof fee. No loss of priority should occur with the late proof filing due to Terry's attempt prior to 7/1/91 to clarify the water rights situation.

By reinstating the permit and filing amended claim A63-08430A (mailed for signature today), the 71 acres listed in 63-11116 will be covered. The proof of beneficial use and the withdrawn transfer application are attached.

SRBA CLAIM A63-08430A - See receipt C020953

This amended claim for a portion of the license was prepared on 8/7/91 and mailed to Terry on 8/8/91 for his review and signature. Based on the above discussion, he would like a refund for the \$58 paid for acres that he does not own and is not claiming in the amended claim. The request seems reasonable because he tried to take care of this confusing situation in an appropriate way. However, what about a late fee for his claim? I have not checked ML3 yet. A63-08430 was updated to show the split of the license.

* note: transfer not required to show p/d changes prior to 1987 for other two licenses.
