Subject: Exhibit List for Parkinson Hearing
Attachments: Exhibit List for Transfer Application 77610 (Parkinson).pdf

Dear Parties:

Attached is a final exhibit list for the Parkinson Hearing. Please let me know if you find any errors. I have identified two additional official notice documents from the Department's records. IDWR 11 is a history of the Big Lost River located in the files for Water District 34. IDWR 12 is the 1938 Stearns Report discussed by Mr. Owsley and the technical experts.

A decision in this case will likely be mailed out before the end of the month. I am sorry that it has taken longer to complete than I had expected. A copy of this email will be mailed to Mr. Parkinson.

James Cefalo
Water Resources Program Manager
