Re: Notice of Change in Water Right Ownership No: 63-8461
Split into: Water Right No. **63-8461** & 63-33892

Dear Water Right Holders:

The Department has received and processed a Change of Ownership for a portion of your original Water Right as referenced above. This change of ownership resulted in a split of the water right.

When a portion of the original water right has been conveyed to another and the original right has been split, then the original water right number is used to represent your split. Each split contains only the portion of the original right for each separate owner. Enclosed is a copy of the remainder of your water right for your records.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning the enclosed information or this letter, please feel free to contact me at (208)334-2190.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Re: Notice of Change in Water Right Ownership No: 63-8461

Split into: Water Right Nos. 63-8461 & **63-33892**

Dear Mr. and Mrs. Coreson:

We have processed a Change of Ownership for a portion of the original Water Right as referenced above. This Change of Ownership required a split of the original water right resulting in renumbering this water right, using a new water right number to represent your split. The new water right number for your portion is referenced above and a copy is enclosed.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Your portion of this water right has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Thank you for your patience in this matter. If you have any questions concerning the enclosed information or this letter, please feel free to contact me at (208)334-2190.

Sincerely,

KAY WALKER
