**RE: Preliminary Order Voiding Application for Permit No. 63-33761
Extension of Time Request**

Dear Applicants:

On December 27, 2013 our agency received your letter requesting an extension of time for the Black Canyon Irrigation District (BCID) to provide authorization for use of their canal system. Prior on December 18th, the Manager of BCID contacted our office. He stated BCID would not authorize the use of their canal system to convey water for your project. However, they did not have a problem with the drilling of a new well.

Please provide one of the following responses by **January 17, 2014**:

-A letter from BCID authorizing use of their canal system to convey water for the project.

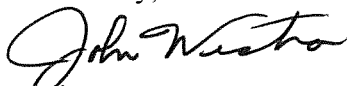

OR

-A detailed plan that outlines how water will be delivered to the place of use locations without utilizing the BCID canal system.

Our agency is not able to grant additional time beyond the January 17th deadline for your response. If your response is not received by the January 17th deadline, the previous preliminary void order will become final. Your application will be void and removed from our records. You may re-file a new application at a later date if desired.

Should you have questions, please contact Kay Walker or me at the Western Regional Office, phone 208-334-2190.

Sincerely,

John Westra, Manager
