It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

From: Jean Hersley
Date: January 7, 2014
Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: We received these WSB Request to Extend Lease Term applications on December 9, 2013.

AUTHORITY TO FILE: Applications were signed by Christopher H Meyer, Attorney in Fact for Bluewater Development LLC. In the file is a Special Power of Attorney for Water Rights issued for Givens Pursley.

WATER RIGHT VALIDITY: These rights have been in the Bank since 2007. Claims were filed on both rights in June, 2013. Lands are still being supplied water by a City of Coeur d'Alene municipal right.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are not subject to any Water District.

Jean,

This is in response to your inquiry regarding the referenced water rights (95-2112 and 95-2200).

The email response below is from John F. Magnuson, whose name appears on the applications for extension.

I believe that his answers are responsive to your question.

They confirm that, to the extent the land in question has been irrigation, it was irrigated with municipal water, and the subject water right are not being used for and are properly retained in the water bank, available for rental.

Again, thank you for your attention to this application. Let me know if there is anything further than I may provide.

The source of the water that she is referencing is the municipal water system, which is a closed loop system that furnishes the entire subdivision. The water rights were used to irrigate the property before it was annexed into the city. The water rights are not used on the property now by any person, including the city.

Does that answer her question?

John,

Please see the email inquiry below from IDWR regarding the extension of the Powderhorn water bank leases.

The thrust of her question is to confirm that the water you seek to put (or keep) in the water bank is not being used on the ground.

Is she correct in her conclusion that "the lots and some parks have been irrigated in the past few years"?

If so, we should be able to identify some source of water for that irrigation other than the water rights you that are being offered to the water bank.

Your thoughts?

Re: Bluewater Development, LLC — Water Right Nos. 95-2112 and 95-2200

Dear Sir or Madam:

I am writing on behalf of Bluewater Development, LLC. I serve as the company's special water counsel.

I am enclosing two applications for extension of the Water Supply Bank lease terms for Bluewater Development, LLC's Water Right Nos. 95-2112 and 95-2200, together with (1) a map depicting the acres to be idled and (2) a completed Form W-9.

I am also enclosing a copy of the Special Power of Attorney authorizing me to act on behalf of the company in this regard.

Finally, I enclose two checks for \$250.00 each to cover the filing fees for the two applications.

The company seeks extensions through December 31, 2014.

The condition for Water Right No. 95-2112 under the heading "Minimum Payment Acceptable" should continue to read: "\$80,000 per year (\$500 per acre); only entire right may be rented."

Page 2

The condition for Water Right No. 95-2200 under the heading "Minimum Payment Acceptable" should continue to read: "\$78,500 per year (\$500 per acre); only entire right may be rented."

It is my understanding that even if this extension is not processed prior to the expiration of the current lease on December 31, 2013, the application will be deemed timely filed and when the extension is approved it will be backdated to ensure that there is no gap in Water Bank protection.

Once approved, I would appreciate receiving an acknowledgment that these extensions have been approved.

Thank you very much for your assistance in this matter. Please contact me if you have any questions.

Sincerely,

Christopher H. Meyer
