Subject: Water Right Applications 74-16005 & 75-14778

Dear Sharla:

The Idaho Department of Fish and Game has reviewed the above referenced applications as described below:

74-16005-submitted by Steve and/or Jimmie Bartlett for 0.018 cfs of ground water using an existing well to irrigate a ½ acre of a residential lot.

74-14778-submitted by Neal James for 0.06 cfs of ground water using an existing well to irrigate 2 acres of a residential lot.

Both proposals intend to replace surface water diversion (with a ground water source) from the existing L-1 rock diversion weir and ditch system on the Lemhi River.

At this time, we have no comments concerning these proposals.

Thank you for the opportunity to review
