Re: Water Right Permit No. 96-9252

Dear Mr. and Mrs. Nedwick:

The Idaho Department of Water Resources (IDWR) is in the final stages of reviewing your water right permit #96-9252 prior to the issuance of a license.

Your permit is for the irrigation of 0.6 acres with a corresponding diversion rate of 0.02 cfs. On August 8, 2011 you filed a "Statement of Completion" stating 0.33 acres of irrigation had been put to beneficial use instead of the 0.6 acres as permitted.

Bonner County tax records indicate there are only 0.5 gross acres within your Lot 20 of the Sunny Shores Subdivision. Further aerial examination by IDWR shows approximately 0.19 acres is inundated by waters from the Pend Oreille River. IDWR estimates the non-irrigable portion of Lot 20, home and driveway, amounts to approximately 0.11 acres. When subtracted from the remaining 0.31 acres, there remains 0.2 acres of lawn for irrigation.

I would like to proceed with the issuance of a license for the irrigation of 0.2 acres with a corresponding diversion rate of 0.02 cfs (9 gallons/minute). Enclosed is a draft license for your review. If you concur, please let me know either by e-mail (keith.franklin@idwr.idaho.gov) or regular mail within the next 30 days so as not to further delay processing.

If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

COPY
