Re: Extension Request filed for permit no. 72-16772

Dear Permit Holders:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. You have asked for 5 years on this extension. According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. You have already used 4 years of the initial 5 year development period allowed. If you were to request only 1 year on this extension request form you would be able to file one more extension request later for up to 5 more years.

However, in order for me to modify your request for extension of time form I need written request from you stating that you would like to have your extension request form modified to reflect a 1 year extension in lieu of the 5 years currently stated on the form. If you feel this is something you would like to do, simply reply to this email with your written request to have your form modified. Please respond as soon as possible.

Sincerely,
