Re: Transfer Evaluation

Transfer No. 78969 for water rights 31-2282A, 31-2372 and 31-7196C proposes to split a portion of each of the water rights, moving the split portions to a new place of use with new points of diversion. These split portions will overlap a permissible place of use for water rights 31-4090, 31-4089, 31-10405A, 31-4117 and 31-10405B.

Authority to file:

All of the water rights are currently in the name of Kamlah and Janey Roundy. The current place of use is in the name of Kamlah and Janey Roundy. All of the water rights list Zion's First National Bank as a security interest. The application contained authorization from Zion's First National Bank agreeing to the transfer.

Validity of the Water Right:

Water rights 31-2282A, 31-2372 and 31-7196C were decreed on February 22, 2002. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. An ESPA analysis was conducted based on the consumptive use element of the rights and submitted with the application. The analysis was set up correctly and showed that no mitigation is required. The application was advertised, no protests were received. The water master for WD110 was notified of the transfer and did not oppose the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
