Mr. Greenfield,

Per your request I will be modifying your request for extension of time received on September 12, 2013 for water right permit no. 63-12161 to reflect an extension request for 2 years in lieu of the 1 year originally written on the form. The new proof due date will be October 1, 2015. You will need to show/prove by filing a statement of completion form that water has been put to use for irrigation on the full 80 acres by that date.

Caldwell, Idaho 83607

Dear Ms. Block:

Please extend for two years the completion deadline for our well permit in order to allow time enough for the well to be drilled and to become fully operational.

Please acknowledge receipt of this request. Thank you.

Sincerely,

Robert Greenfield
