The purpose of the transfer is to change a portion of the above rights as follows: Application proposes to combine and to create a common permissible place of use (PPU) for irrigation under rights diverted from Willow Creek, Land Creek, Land Ranch Spring, and from ground water. Under the combined system, the surface water rights will be diverted at one existing point of diversion on Willow Creek, two existing points of diversion on Land Creek, and at Land Ranch Spring. Ground water rights will be diverted from a system of 16 existing, interconnected wells. No new wells will be drilled. Surface water will be diverted to ponds and combined with ground water to create a fully integrated distribution system for all sources of water. The proposed PPU will incorporate portions of the current authorized place of use for the included rights along with adjacent ground for a total of approximately 7776 acres. The PPU is located between 7 and 13 miles directly south of Burley and two miles east of State Highway 27.
