MEMORANDUM

Date: December 16, 2013
To: Transfer 78966 File
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Application proposes creating a 238 acre Permissible Place of Use (PPU) for water right 47-8075, a 1.3 cfs supplemental ground water right applied to 200 acres. The PPU and points of diversion are located approximately 14.0 to 14.8 miles south and 2.5 to 3.4 miles west of the intersection of Addison Ave and Blue Lakes Blvd in Twin Falls.

Application was filed as part of an agreement to resolve a Notice of Violation that was the result of a written complaint indicating the applicant was using ground water to irrigate approximately 59 acres in the SW¼NE¼ & SE¼NE¼ of TWP 12S, RNG 16E, Sec. 25, B.M., Twin Falls County without a valid water right on those properties.

Applicants included a stock certificate with the application that stated they own 238.55 shares of water from the Salmon River Canal Company and that those shares can be used to irrigate lands the applicant owns including the new acres in the SW¼NE¼ & SE¼NE¼ of TWP 12S, RNG 16E, Sec. 25, B.M.

Overlap review indicates water right 47-8075 is the only irrigation ground water right appurtenant to the proposed PPU. A map was provided indicating which acres will be irrigated in the 2014 irrigation season and the water right has been linked to an electronic shapefile in the transfer layer representative of that map.

Since the application only modifies the place of use to include adjacent lands, and since there is no hydrologic change, the transfer was processed, and can be approved without advertising.

- **Authority to File:** Applicant, John D. Courtney, is listed as the current owner of water right 47-8075. A warranty deed was provided indicating both applicants ownership of the acres added to the PPU.
- **Water Right Validity:** Water right 47-8075 was licensed on 11/30/2001. Recent aerial and satellite imagery indicate the property involved with this transfer appears irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing.
