Keith:

Thank you for your reply.

As you know, it matters not who the irrigation company says is the owner....If Mr. Damiana would like to move the water rights, he needs to prove that he still owns them or submit a release of interest from the current property owners.

I will hold the application until September 17, 2013, if no paperwork has been submitted verifying ownership of the rights I will return the application as incomplete.

If you have any questions, please let me know.

Have a great day,

Kerrie Mathews

Kerrie,
I looked on the departments web site (in parent water right files 34-378A & 34-14078) and found that Damiana's water rights were created by ownership changes.

I'm sure that you can get better copies that I could make and check out the deeds etc.

Randy Damiana did not think he had any ownership left until he got this bill from the irrigation district. They told him that he could not relinquish the rights so he wanted to transfer them so that he would be able to benefit from the remaining.

Subject: Damiana Transfer
Attachments: Property Ownership - WR POU.s.pdf

Good Afternoon:

The Department has received the application for transfer submitted on behalf of Randal and Sandra Damiana. During the initial review it was found that the place of use appurtenant to water rights 34-14246, 34-14248, 34-14250 & 34-14252 are not currently owned by Randal and/or Sandra Damiana (see attached maps).

The transfer application contained many warranty deeds NONE of which match the names of the property owners at the current place of use for the rights listed above.

In order to continue processing this transfer application, please provide:

1. A warranty deed from Damiana to each property owner, where Damiana retained the water right, or
2. A notarized water right release from Jack Andrew Dickerson, Roudy Keller, Steve Keller & Jay Jensen.

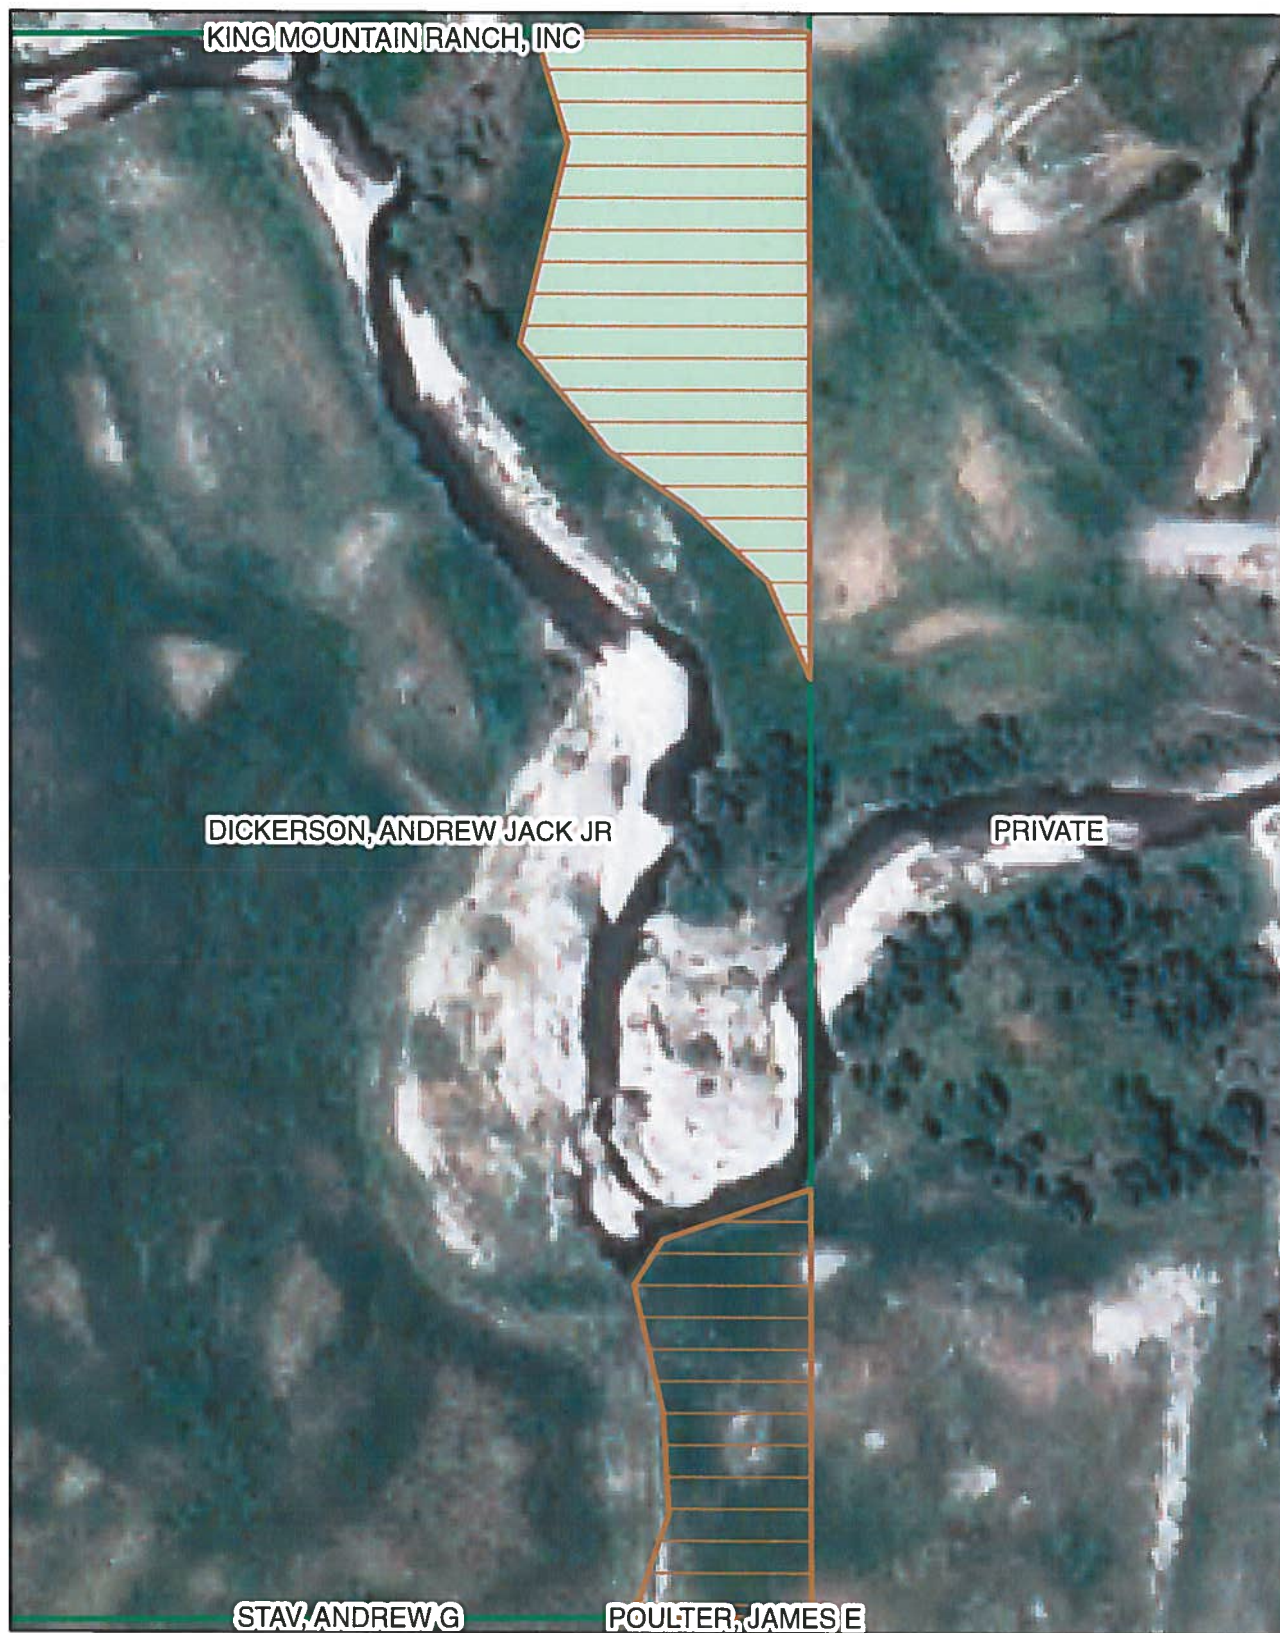

If you have any questions, please let me know.

Thank you,

Kerrie Mathews
