RE: Additional Information Request for Permit 85-7655

Dear Mr. & Mrs. Colwell,

On June 8<sup>th</sup>, 1999, you filed an application for permit to appropriate water for a domestic and stock water use in the NWSWNE  $\frac{1}{4}\frac{1}{4}\frac{1}{4}$  of Section 14, Township 36 North, Range 1 West. The application was approved and water right permit 85-7655 was issued on September 1, 1999. On September 30, 2001, you filed a proof of beneficial use statement claiming that you developed the domestic use under water right permit 85-7655.

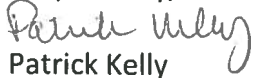

I am now trying to verify the water use under 82-7203 to license this water right permit. I have attached a copy of the permit and the map. It is difficult to locate through recent aerial photography to locate the pump and storage stations. We will need to verify where this water is actually diverted and stored. Please provide the following information.

1. Please clearly mark on the enclosed map where the domestic use under this permit is being used, and return the map to our office.
2. Please clearly mark the location of diversion and storage tanks on the same map.
3. If you have any pictures of the property showing the water system, home, and any stock water use, we would appreciate it if you could send that information to us as well.
4. The phone number that is on the permit has been disconnected. Please provide an up to date phone number as well.

You can request that IDWR personnel go into the field to collect this information accompanied by you if you would like. For this to occur, please contact me within thirty (30) days.

If I do not receive the requested information from you within thirty (30) days, I will take action to void your permits under the provision of Section 42-219(8) of the Idaho Code. If you agree that no beneficial use of water occurred under one or more of the permits listed, you can shorten the voiding process by completing the enclosed relinquishment form for each permit affected and returning it to IDWR.

Respectfully,

Patrick Kelly

Water Resource Agent
