RE: Water Right Permit No. 75-7429

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The permit describes the place of use and the point of diversion by township, range, and section and quarter quarter. Any additional place of use or point of diversion that falls within a quarter quarter not described in the permit requires an amendment. The place of use developed under this right includes additional quarter quarters not listed on the permit.

Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 21 days. Also, please complete the enclosed change in ownership form and include the \$25 fee.

If you have any questions, please call me at (208)287-4879.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Sandra Thiel'.
