RE: Additional Information Request for Permit 82-7203

Dear Mr. Hertel & Ms. Miller:

On January 29th, 1999, you filed an application for permit to appropriate water for a domestic use in the SWNE ¼ of Section 33, Township 31 North, Range 4 East. The application was approved and water right permit 82-7203 was issued on April, 14th, 1999. On April 17th, 2000, you filed a proof of beneficial use statement claiming that you developed the domestic use under water right permit 82-7203.

I am now trying to verify the water use under 82-7203 to license this water right permit. I have attached a copy of the permit and the map. It appears from this map that the taxlot owned by you could be in a different legal description described in the water right permit. We will need to verify where this water right is actually used. Please provide the following information.

1. Please clearly mark on the enclosed map where the domestic use under this permit is being used, and return the map to our office.
2. Please clearly mark the location of the well on the same map.
3. We will need the Horsepower of the well pump. You can generally find this information on the pump panel or the last person to work on the well would probably have this information.
4. If you have any pictures of the property showing the well, home, and any irrigation, we would appreciate it if you could send that information to us as well.

You can request that IDWR personnel go into the field to collect this information accompanied by you if you would like. For this to occur, please contact me within thirty (30) days.

If I do not receive the requested information from you within thirty (30) days, I will take action to void your permits under the provision of Section 42-219(8) of the Idaho Code. If you agree that no beneficial use of water occurred under one or more of the permits listed, you can shorten the voiding process by completing the enclosed relinquishment form for each permit affected and returning it to IDWR.

Respectfully,

Patrick Kelly

Water Resource Agent
