RE: Additional Information Request for Permit 86-11966

Dear Serba:

I wrote the enclosed letter to Mr. Richard Koller concerning a water right permit that may be associated with your property. Please read the enclosed letter, and if it is associated with your property, please contact me. If you can supply any of the needed information in the letter to Mr. Koller, please send me what you can. If this water right permit is attached to your property, failure to respond could cause this water right to be voided, and leave you without a water right for your trailer house. Please contact me if you have any questions.

Respectfully,

Daniel A. Nelson

Staff Hydrologist

RE: Additional Information Request for Permit 86-11966

Dear Koller:

On December 9, 2005, you filed an application for permit to appropriate water for a domestic use in Government Lot 2 in the SWNE $\frac{1}{4}$ of Section 29, Township 37 North, Range 2 West. The application was approved and water right permit 86-11966 was issued on February 3, 2006. On February 11, 2008, you filed a proof of beneficial use statement claiming that you developed the domestic use under water right permit 86-11966.

I am now trying to verify the water use under 86-11966, and license this water right permit. I have attached a copy of the permit and the map supplied by you for this water use. It appears from the map, that this property is now owned by David L. Serba. A copy of this letter will also be sent to Mr. Serba. If Mr. Serba is the current owner of the property, you can assign the water right into Mr. Serba's name, and I will work through Mr. Serba to license this water right.

In a telephone conversation with you on November 12, 2013, I informed you that I needed some basic information to ensure that we can license this water use. I will need the following items if available:

1. We will need the Horsepower of the well pump. You can generally find this information on the pump panel or the last person to work on the well would probably have this information.
2. We will need you to mark on the enclosed map the location of the home, and any irrigation that is associated with the home listed on this permit.
3. If you have any pictures of the property showing the well, home, and any irrigation, we would appreciate it if you could send that information to us as well.

You can request that IDWR personnel go into the field to collect this information accompanied by a member of your staff/organization. For this to occur, please contact me with the name, telephone number, and email of your representative and the representative must be available to be contacted and for scheduling of the required visits within thirty (30) days. IDWR must also receive the contact information of your representative in a timely manner.

If I do not receive the requested information from you within thirty (30) days, I will take action to void your permits under the provision of Section 42-219(8) of the Idaho Code. If you agree that no beneficial use of water occurred under one or more of the permits listed, you can shorten the voiding process by completing the enclosed relinquishment form for each permit affected and returning it to IDWR.

Respectfully,

Daniel A. Nelson
