Subject: Waiver on Al Simpson

Sandra;

Sorry about the delay on getting back to you on this issue.

I talked to Mike Kossler Manager at Eagle Valley Ranch, he had no problem with waiving the requirement of the lockable head gate and water measuring device on Al Simpsons waste water ditch. I, Jerry Elzinga Water Master on Bohannon Creek agree. The ditch that supplies water to Al Simpson's waste water right has both the lockable head gate and water measuring device and we feel there is no reason require these.
