

MEMORANDUM

TO: Transfer No. 78689
FROM: Steve Lester 
DATE: November 14, 2013
RE: 2nd Review Memo -- Evaluation of Application

The application was protested but settled with the 11/13/2013 stipulation for withdrawal of protest. Proposed conditions in the stipulation are reflected in the transfer approval being prepared.

IDWR concerns noted in the 1st review memo are also covered by pending conditions of approval to the extent possible under department jurisdiction.

Potential injury issues are covered by the withdrawn protest and measuring/monitoring conditions of approval. Local public interest is now satisfied.

The transfer should be approved.

Some of these issues might pertain to other pending transfers and possible future filings in the subdivision (Bohme transfer 78669 pending at this time).
