CONDITIONS OF APPROVAL

1. The boundary encompassing the place of use for irrigation under this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use for irrigation is attached to this approval document to illustrate the place of use described by the digital boundary.
2. This right is limited to the irrigation of 649.8 acres within the boundary of the New Union Ditch Company Ltd. in a single irrigation season.
3. The right holder shall accomplish the change authorized by this Transfer within one (1) year of the date of the approval.
4. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfers.

Transfer No. 78771

WATER RIGHT NO. 63-146

As Modified by Transfer No. 78771

CONDITIONS OF APPROVAL

5. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
6. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
7. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
8. This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and preceding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and preceding to the earliest, shall be reduced to 60 percent of their decreed quantities.
9. Transfer 70266 authorizes the diversion rate in the amount of 0.03 cfs and 4.6 af to be used for replacement of losses caused by evaporation from one pond associated with Right 63-12598.
10. Transfer 73632 authorizes the diversion of water in the amount of 0.36 cfs and 66.4 af to be used for replacement of losses caused by evaporation from 10 ponds associated with Right 63-31934.
11. Transfer 73632 authorizes the diversion of water in the amount of 0.09 cfs and 20.2 af to be used for replacement of losses caused by evaporation from one pond and evapotranspiration from the irrigation of 4 acres associated with Right 63-32143.
12. Transfer 75286 authorizes the diversion of water in the amount of 0.16 cfs and 28.0 af to be used for replacement of losses caused by evaporation from three (3) ponds associated with Right 63-33631.
13. This approval (Transfer 78771) authorizes the diversion of water in the amount of 0.12 cfs and 21.0 af to be used for replacement of losses caused by evaporation from one (1) pond associated with Right 63-33792 and three (3) ponds associated with Right 63-33772.
14. Rights 63-125K, 63-126G, 63-161L, 63-205, 63-206, 63-258B, 63-263, 63-286, 63-288B, 63-28977, 63-31778, 63-31806, and 63-31937 are also diverted through the point of diversion described above.

WATER RIGHT NO. 63-146

As Modified by Transfer No. 78771

CONDITIONS OF APPROVAL

15. Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoir dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.
16. This right originated as all or part of right no. 14 in the Stewart Decree and the historic Boise River Water Masters records.

Water Right No. 63-146

Transfer Approval Notice

Dear Water Right Holders:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208)334-2190.

Sincerely,

A handwritten signature in black ink, appearing to read "Rachel Sommer". The signature is fluid and cursive, with the first name "Rachel" and last name "Sommer" clearly distinguishable.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 78771
FROM: Kay Walker *KW*
DATE: September 11, 2013
RE: Evaluation of Application

The transfer proposes to change the nature of use of a portion of the irrigation water to supply mitigation for evaporation losses in four excavated ponds in the Edgewater Estates and Carlton Bay developments. The transfer proposes a 1:1 swap of 6 acres of irrigation for 6 acres of land under the ponds.

The site is located at Eagle Island on the south side of State Street, approximately 1 mile north of Chinden Blvd., and 2 miles west of Eagle Road.

Summary of Information Submitted

Authority to File:

The applicant is the right holder of record.

Water Right Validity:

Right presumed to be valid. The right holders received an approved Extension of Time to Avoid Forfeiture in February of 2013. They have until July 1, 2017 to put their water right back into use. The New Union Ditch Company intends to place a portion of the water right (that is not in current use by its shareholders) into the water supply bank.

Injury to Other Water Rights:

There should be no injury to other rights due to this proposal. The ponds are existing and this transfer is providing water right coverage for the evaporation occurring from the ponds; Application for Permit Nos. 63-33772 and 63-33792 are also being processed that are proposed to cover the storage of water in the ponds.

Enlargement of Use:

No enlargement should occur due to this proposal. There will be no increase in the diversion rate, diversion volume, or extent of beneficial use as a result of the transfer. The number of acres authorized for irrigation within the ditch company boundaries will be reduced by 6.0 acres to allow for the nature of use changes proposed for mitigation of applications for permit nos. 63-33772 and 63-33792. The period of use proposed for the Aesthetic Storage nature of use change is

year round, rather than the irrigation season which is consistent with previous transfer approvals for similar nature of use changes. Considering a de minimus amount of consumptive use due to evaporation losses will occur during the non-irrigation season and the diversion to storage use shall be limited to the irrigation season, no enlargement should occur.

Local Public Interest:

This transfer proposes mitigation for existing aesthetic ponds. Changing the nature of use for 6.0 acres of irrigation is minimal and will not significantly impact the local agricultural base. Reduction in irrigation to mitigate existing ponds serves the local public interest.

Beneficial Use/Conservation of Water Resources:

The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Discussion

Data entry affected the correct record which is the partial decree of September, 2007. The right has been migrated into water right records and the correct record was used for this transfer application.

Overlapping rights at existing POD are those rights decreed to New Dry Creek Ditch Company and the New Union Ditch Company. There is also a right for Drainage District No. 2 with a source of waste water that is diverted from this point. The rights diverted from this point of diversion are as follows: 63-125K, 63-126G, 63-146, 63-161L, 63-205, 63-206, 63-258B, 63-263, 63-286, 63-288B, 63-28977, 63-31778, 63-31806 and 63-31937. The rights held by New Dry Creek Ditch Company are used within a different service area and/or for a different use than the right proposed for transfer. There are no overlapping rights affected by this transfer.

The ponds proposed for mitigation in the transfer are to be used for aesthetic storage totaling 78.9 acre feet pursuant to the applications. The consumptive use associated with the 78.9 af capacity is 21.0 af (6.0 ac surface area x 3.5 af/ac standard for the area). The purpose of the transfer application is to mitigate for the consumptive use of the ponds. The transfer proposes to change the nature of use of 21.0 af to mitigate these ponds. This adequately covers the volume for mitigation of the ponds.

Watermaster comments will be solicited.

Summary

Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.
