Re: Permit # 65-23515

We kindly request an extension of time to submit proof of beneficial use. We have received bids for the water system but we cannot install said system until a dispute over an easement is resolved. The hearing for the resolution of the easement that affects the layout of the water system is set for the spring of 2014.

Sincerely,

A handwritten signature in cursive script, appearing to read "Amelia Robison".
