MEMORANDUM

To: Transfer 78907 File
From: Bill Mills
Re: Evaluation of Sufficiency of Information Submitted

Application proposes adding a new well to a 29.29 cfs combined group of 12 ground water rights (45-2413; 45-2431; 45-2432; 45-2594B; 45-4045; 45-4107; 45-7055; 45-7064; 45-7150; 45-7242; 45-7307; 45-13550) that are used on a 3605 acre farm located approximately 5.4 to 10.0 miles north and 0.0 to 3.5 miles west of the city center of Oakley. The proposed well will be located approximately 9.5 miles north and 1.0 miles west of the city center of Oakley. Production from the well will be limited to 10.0 cfs. No changes to place of use are proposed. The well and farm are located in the ESPA, Water District 140, and the Oakley Kenyon CGWMA, with a 594 acre portion of the farm overlapping the Oakley Fan CGWMA. Five of the existing wells and the proposed well in this combined system are located in the Oakley Kenyon CGWMA and two are just across the administrative boundary line in the Oakley Fan CGWMA. The rights in this combined system overlapping two adjacent CGWMAs were decreed as a combined system in the SRBA on 1/6/2006. The proposed well location is in an ESPA model cell adjacent to a cell containing an existing well, so a groundwater analysis is not required.

Surface water rights 45-425D; 45-413; 45-514A and 45-516 are combined with these ground water rights in the place of use and are included in the combined limit conditions on the water rights. The surface water rights were not added to the transfer as associated rights as there was no need to update conditions on those rights. Oakley Canal Co. shares are also utilized in the place of use, so supplemental water right conditions 065 and 104 were placed on all the rights in this transfer.

- **Authority to File:** Applicants are listed as the current owners of all water rights involved in this transfer.
- **Water Right Validity:** All water rights in this transfer were decreed on 1/6/2006. Recent aerial and satellite imagery indicate the properties involved with this transfer appear irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated. The application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**

None Anticipated.

- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

**Review of the application finds there is no clear inconsistency with criteria set forth in
Section 42-222 Idaho Code preventing processing**

Bill,

Attached is an application for transfer to add a point of diversion to a group of rights owned by Cranney Brothers. Included rights are as follows: 45-2413, 45-2431, 45-2432, 45-2594B, 45-4045, 45-4107, 45-7055, 45-7064, 45-7150, 45-7242, 45-7307, 45-13550. This transfer is submitted in order to increase efficiency and improve irrigation practices as current wells are not capable of producing water sufficient to fill the listed rights. No change in place of use is desired.

The new point of diversion is located at 12S 22E 17 NWNWSE. Because one or more wells included in this group of water rights is located in an adjacent ESPAM cell, no mitigation analysis is required.

Total combined water right cfs is 29.29. It is proposed the new well be limited to 10.0 cfs.

Sincerely,

Michael Cranney for Cranney Bros
