WATER RESOURCES

RE: Mitigation Plan Available for Water Right No. 37-2505

Dear Mr. Keen:

This letter provides notice that the undersigned has developed a Mitigation Plan to enable the delivery of water right no. 37-2505 in response to a delivery call.

We are not submitting the Mitigation Plan at this time in an effort to not trigger a review of the plan during times of limited review assets.

Please place this letter in the file for this water right, and advise us when the submittal of a Mitigation Plan is appropriate.

Sincerely,

Scott Boettger
Executive Director
