Jean,
Our interests are in the gas station and convenience store (which is all in the same building).

Thank you for the Exhibit A. I need to know how this is to be split. The Commercial use of this water is for a gas station, convenience store, tire shop and 3 offices. The fire protection use would be for the same. I have attached the water right report for your convenience. Let me know how you would like these uses to be split.
Thank you.
