Re: Application for Permit/Neil Schoenenberger

Dear IDWR:

Please find the following enclosed documents:

1. Check payable to the Idaho Department of Water Resources in the amount of \$410.00 from Neil Schoenenberger;
2. Application for Permit signed by Neil Schoenenberger;
3. Map of the two pivot irrigation systems currently in use by Neil Schoenenberger for which the permit is requested;
4. A second map showing the pivot system extending somewhat beyond where the first map indicates.

The well and associated pumps and electrical system, together with the two pivots have been in place for a number of years. This new application is being made to correct prior inconsistencies with the first application and the development of the irrigation water system on the premises.

Assuming there are no protests to the existing water irrigation system, the water right and its placement under beneficial use has already occurred and can be verified for licensing at any time.

If you have any questions or suggestions, please let me know.

Sincerely,

Steven R. Fuller
