Hi Denise.

This email is in response to transfer #78891.

I am not opposed to this transfer.

That said, I have a couple comments.

1-The groundwater well specified has not been used for several years for irrigation. Our site visit notes state "well converted to domestic and stock". There is sagebrush growing all around the well head and the concrete is busted up indicating little use.

2-The POU is almost 400 acres with the groundwater right at 22. Therefore, a condition should state that total usage from the well is 88 acre feet.

Thank you.

Brian
