MEMORANDUM

Date: December 5, 2013
To: Transfer 78957 File
From: Jana Reeder
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes correcting a point of diversion for surface water right 47-4108 that was inaccurately recommended in the adjudication. There will be no physical changes to the existing farm and irrigation system that is located approximately 5.5 – 6.0 mi. south and 1.0 – 1.25 mi. east of the city of Kimberly. Two existing surface water diversions are used to divert up to 0.5 cfs for the irrigation of 24 acres on the farm.

All property and points of diversion involved with the application are located outside the ESPA and in a portion of Water District 47 O that is not regulated so water master comments will not be solicited.

Note, after discussion with the State Office it was decided that no physical change is being accomplished by the transfer so advertising is not required.

- **Authority to File:**
The applicant is listed as the current owner of water right 47-4108 according to IDWR records.
- **Water Right Validity:**
Water right 47-4108 was decreed on 8/5/2009. Review of aerial photos indicates that the lands have recently been irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No hydrological impact anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
