---	--

On November 4, 2013, the Director (“Director”) of the Idaho Department of Water Resources (“Department”) issued his *Final Order Regarding Water Sufficiency* (“Final Order”) in the above captioned matter.

On November 18, 2013, Shekinah Industries, Inc. and D. Michael Preston (collectively “Shekinah”) filed with the Department a *Petition for Clarification, or in the Alternative, Petition for Reconsideration* (“Petition”). In its Petition, Shekinah requests that the Director clarify or reconsider the Final Order, specifically Findings of Fact nos. 15 and 16, and Conclusions of Law no. 12. Shekinah argues that these sections “suggests that the water rights Shekinah proposes to transfer might be limited to a diversion volume of no more than 1,107 AF (3 AFA per acre) instead of the 1,476 AFA (4 AFA per acre) authorized by the SRBA decrees.” *Petition* at 3. The Director grants Shekinah’s request for clarification and responds as follows:

ANALYSIS

The source of Shekinah’s concern is the Final Order’s discussion of Mayfield Townsite, LLC’s (“Mayfield”), Nevid, LLC’s (“Nevid”) and Shekinah’s annual consumptive water requirements as estimated by Dr. Christen Petrich and then used by the Director in the Final

Order. *See* Findings of Fact 15 and 16. A close review of the numbers shows that they are estimates of each entity's annual consumptive volumes and are not estimated annual diversion volumes as suggested by Shekinah. The volume identified for Shekinah is 1,107 AF, which is consistent with a volume calculated using the Department's *consumptive* standard for irrigation (3.0 AF/acre) in that area. The Department's standard *diversion* volume for irrigation in that area is 4.0 AF/acre. The fact that these numbers are actually annual consumptive volumes is further evidenced in the exhibit from which the numbers are taken. In the comment section of the chart, it provides what are clearly estimated consumptive rates for each diversion. *Mayfield/Nevid Exhibit 5*. For example, the comment section of the chart for Mayfield provides "0.54 AF/unit."

The purpose of the volume calculations undertaken by Dr. Petrich was not to limit the annual diversion volumes for each entity, but instead to provide an estimate of each entity's annual consumptive impact on the water supply so the Director could determine the sufficiency of the available water supply. This exercise did not purport to limit Shekinah's annual diversion volume and the Director does not interpret it as doing so. Close inspection of the numbers used in the Finding of Fact 15 and 16, and the underlying exhibit from which the numbers were taken support this conclusion.

ORDER

Based upon and consistent with the foregoing, IT IS HEREBY ORDERED that the Shekinah's petition for clarification is GRANTED. Findings of Fact nos. 15 and 16, and Conclusions of Law no. 12 do not limit Shekinah's annual diversion volume.

IT IS FURTHER ORDERED that Shekinah's petition for reconsideration is DENIED. No change to the Final Order is necessary because Findings of Fact nos. 15 and 16, and Conclusions of Law no. 12 do not limit Shekinah's annual diversion volume.

Dated this 6th day of December, 2013.

GARY SPACKMAN
Director

EXPLANATORY INFORMATION TO ACCOMPANY AN ORDER DENYING PETITION FOR RECONSIDERATION

(To be used in connection with actions when a hearing was held)

The accompanying order is an **Order Denying Petition for Reconsideration** of the "final order" or "amended final order" issued previously in this proceeding by the Idaho Department of Water Resources ("department") pursuant to section 67-5246, Idaho Code.

Pursuant to sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days: a) of the service date of the final order, b) the service date of an order denying petition for reconsideration, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.
