MEMORANDUM

To: Water Right Nos. 37-00153B and 37-8826

From: Sandy Thiel

Date: November 21, 2013

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: James Speck of Speck & Aanestad submitted two applications to lease water under rights 37-00153B and 37-8826 on behalf of the TBL Living Trust. The entire rate and volume of both rights will be leased, for one year, to the bank together as they completely overlap.

AUTHORITY TO FILE: Toby B. Lambert, is the trustee of the TBL Living Trust, the current water right holder.

WATER RIGHT VALIDITY: Right 37-153B was decreed 9/24/2010 and is not subject to forfeiture. Right 37-8826 lists beneficial uses domestic and fire protection storage. The aerial photography shows both a house and a pond over the past 10 years.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased rights are subject to Water District #37. Comments were requested of the watermaster and the southern region. The water master responded that he had no comments. Allen Merritt expressed concerns about the domestic right (see attached email dated 11/15/2013) Jim Speck responded that the house is gone and the irrigation system lines have been removed (see attached email 11/18/2013)

Sandy,

The previous owner cut off the electricity to the well and removed all of the irrigation lines as well as the house. Sad, but true! My client desires to proceed with the WSB lease applications as filed. Thanks.

Thanks Jim. My concern is that if the owners put these rights into the water supply bank they will not be able to irrigate that property at all next summer. Putting the domestic right into the bank will even remove the option of irrigating 1/2 acre. Are they willing to not water the trees or the lawn?

Sandy,

The house was removed by the previous owner in anticipation of constructing an entirely new home. However, the new home never received the required approvals and thus the lot was sold to my client. My client may well decide to develop the lot and build a home within the next year, so we decided to just lease the rights to the Bank for one year. If those plans are not pursued, my client will likely file new applications (or whatever other filing may be required) to extend the leases.

Please let me know if you need any additional information.
Thank you.

Hello, I have a few more questions about the 2 water rights that TBL Living Trust proposes to put into the bank.

Right 37-8826 is for domestic, diversion to storage and fire protection storage. Both the pond and the house appear on our most recent aerial photography. You mention that there is no longer a house on the property. Was it destroyed in the fire last summer?

Right 37-153B for irrigation, was decreed July 6, 2010. It will not be subject to forfeiture until 2015 at the earliest.

Is there a particular reason why they want to put these rights into the Bank for one year?

Sandy,

The season of use for 8826 is 1/1 thru 12/31 whereas the season for 153B, an irrigation water right, is 4/15 thru 10/31. However, they can both start 1/1/2014 if it makes sense to you.

Hello, I am processing water rights 37-8826 and 37-153B for inclusion in the Water Supply Bank. Water right 37-8826 lists the lease period as 1/1/2014 through 12/31/2014. 37-153B lists the period as being from 4/15/2014 through 12/31/2014. Should the beginning dates be different? Or should both be in the bank starting 1/1/2014?

I kind of question the placement of 37-8826 in the WB since it is essentially a domestic right. Are they going to let the grass around a million dollar house dry up? Is the house going to remain vacant and the well not used? Is this house being served by another system?

Hello again. 37-153B should be for 0.17 not 1.58 cfs.

Hello Allen , I am processing an application to lease water rights 37-153B and 37-8826 into the water supply bank. They requested to lease the entire rights through the end of 12/31/2014: 37-153B for 1.58 cfs and 37-8826 for 0.04 cfs. Do you have any concerns that I should be aware of? Thanks for your help in advance.

RE: TBL Living Trust
Application to Lease Waters Right No. 37-153B and 37-8826 to the Water Supply
Bank

Dear Pam:

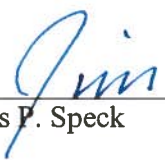

Enclosed please find the original and one copy for each of the above-referenced Applications together with IRS Form W-9, all signed by my client, Toby B. Lambert, who is the trustee of the TBL Living Trust. Also enclosed is my firm's check for the \$500 filing fees. Please receipt date-stamp the copies and return them to me in the enclosed postage prepaid, self-addressed, envelope I have included for that purpose. *ds*

My client has just recently purchased the property. The house depicted in the aerial photograph attached to one of the Applications is no longer there and the pond immediately south of the former house site is filled with silt and other debris from the erosion and runoff after the recent fire and subsequent flood events. At this time, my client desires to lease the two water right to the Bank for one (1) year. She will then decide prior to the expiration of those terms whether or not to renew those leases.

Please contact me if you have any questions about these Applications. Thank you.

Sincerely yours,
